Dear Collector:

For many years, Paramount has prided itself in maintaining one of the finest selections of rare coins in the numismatic field. As you thumb through the pages of this Rare Coin List, I am sure you will find that our long tradition of completeness and quality in our inventory is continuing unabated. Our current stock of rare coins is worth in excess of $5 million, and on the pages that follow, you will find many outstanding numismatic items offered for sale, including some that are undoubtedly just right for your own personal collection.

Every United States series,from half cents to double eagles is well represented and therefore, it is difficult to name all the highlights of this Rare Coin List because there are so many of them. However, certainly one of the high points of this list is the comprehensive selection of early Bust and Seated Liberty dollars. Several uncirculated Bust dollars are offered, along with a remarkable selection of rare and choice proof Seated dollars including the seldom seen 1848, 1850, 1852, 1854, and 1855. The Morgan dollar series, always one of the most popular U.S. coin series, is highlighted by an absolutely fantastic 1892-S that is at least equal to any known specimen of this rare and desirable date.

As every specialist in rare United States gold coins knows, Paramount always maintains the most comprehensive and highest quality selection of rare date gold coins in the entire numismatic field. This Rare Coin List contains many superb gold pieces, including a beautiful 1804 quarter eagle and an impressive run of rare proof $2½'s including the 1860, 1867, 1875, 1884, and 1887. A marvelous uncirculated 1865 $3 gold piece and proof examples of many of the later dates, including 1881 and 1882, are spotlighted in the section on $3 gold pieces. Rare half eagles, such as the 1814/13, 1818, 1820, 1823, 1826, 1831, and 1832 are seldom offered for sale but all of them are included here. Proof eagles, including the extremely rare 1863, 1869, and 1873, as well as many choice and rare double eagles, including a superb 1892 proof, round out our incomparable offering of rare U.S. gold coins. Even if you do not have the financial wherewithal to purchase some of these rare numismatic treasures, I know that you will enjoy reading about them and looking at the superb quality photos.

Although it is not the highest priced item in this remarkable Rare Coin List, the 1831 Proof Set featured on the front cover is one of the most exciting numismatic items that Paramount has ever offered for sale. Such early proof coins are incredibly rare, even more so than most collectors realize. This set came from a midwest collection and I am unaware of any comparable set being offered in many, many years.

You will notice in this Rare Coin List that we have included an outstanding selection of foreign coins. We recently established a Rare Foreign Coin Department under the direction of our Vice-President, Ray Merena, and in subsequent issues of our Rare Coin List, you will find many outstanding numismatic items from all over the world.

Many of you are familiar with Stanley Morycz's dedication to quality and rarity in Paramount's Philatelic Department. What many of you may not know is that Stanley is also a recognized expert in the field of U.S. paper currency. In recent months we established a Currency Department and in this Rare Coin List, for the first time, we offer a selection of large-size U.S. banknotes that is not only very comprehensive, but surely sets a new standard for quality as well.

I hope that you enjoy reading this Rare Coin List and that you will find some items that interest you. Remember, our grading standards are the strictest in the business, and we unconditionally guarantee your complete satisfaction. You can order any item in this list with the utmost confidence that you will be getting exactly what you are paying for. The demand for choice quality coins is extremely high and likely to become stronger, and so if you see an item in this list that particularly interests you, may I suggest that you call our personal service department collect at (513) 836-8641 immediately so that you don't miss out on it.

Sincerely

David W. Akers

David W. Akers
Executive Vice-President

P.S. Don't forget to order my book entitled *United States Gold Patterns,* as well as my book on *United States Gold Dollars.* I am sure that you will enjoy them. By the way, the second volume in the gold coin series, Quarter Eagles, is now available for $12.95 postpaid.

United States Coins

All photographs are of actual coins offered for sale. When more than one condition is listed for a given coin, the **highest grade** is the one that is photographed.

COLONIALS

1652, Pine Tree Shilling, Small Planchet, VF. An exceptionally high grade and well-struck example of early Massachusetts coinage.
. . . . . 775.00

1795, Grate Cent, Large Buttons, Reeded Edge, EF-AU. This token was issued by the firm of Clark and Harris of England. This piece is frequently collected with Washington Tokens as our first president is featured on the obverse. Very sharply struck on a pleasing planchet.
. . . . . 225.00

HALF CENTS

1796, With Pole, VF. A classic U.S. rarity! Beautiful light brown colored planchet. The strike is considerably better than average for this rare date.
. . . . . 6250.00

1800, BU, choice. A remarkably well-preserved specimen of this obsolete denomination. This 175-year-old coin still retains much of its original mint lustre.
. . . . . 3200.00

1810, Brown Unc, choice. Although 215,000 half cents were reportedly struck in 1810, many were dated 1809. As a date, the 1810 is very underrated and especially so in uncirculated. This choice, well-struck, glossy specimen is superior to most known specimens of this date.
. . . . . 1450.00
1811, VG 65.00
1828, 13 stars, VF 35.00
1829, VF 35.00
1831, First Restrike, Choice Proof. The 1831 half cent was recognized as an extreme rarity just a few years after its issue. As a result, several restrikes were made to satisfy the demands of collectors. This particular restrike was made by using the original reverse of the 1836 half cent. Even the restrikes are considered rare and very desirable. An ideal piece to go with the 1831 Proof Set offered elsewhere in this Rare Coin List.
. . . . . 2200.00
1832, Fine 26.00

1833, Choice Proof. An outstanding, sharp specimen! This date is common in all grades including uncirculated due to the fact that several dozen pieces came to light when a hoard was discovered many years ago. Although somewhat readily obtainable in uncirculated, proofs are very scarce. It has been estimated that less than 50 1833 proof half cents exist and many of these are impaired. This is a virtually flawless specimen, ideal for the type collector.
. . . . . 1150.00
1834, Brown Unc, choice 195.00

1836, Original, Proof, Choice. This date ranks among the rarest of the entire series. Restrikes exist but are clearly distinguishable as they were struck from bulged dies and have wire rims. It is estimated that less than a dozen original 1836 half cents exist and the specimen we offer is certainly among the finest. Magnificent surfaces and toning. A rare opportunity!
. . . . . 2500.00
1854, Brown Unc, choice. With nearly perfect, glossy surfaces, this piece would make an excellent type coin.
. . . . . 250.00
1856, Choice Proof. Very well-struck with nearly full brilliance. A very rarely offered coin, competitively priced at only
. . . . . 1100.00

1857, Brown Unc, $189.00; Choice Proof. The last year for this denomination. An exceptionally sharp specimen with beautiful toning. The surfaces are virtually flawless.
. . . . . 1100.00

LARGE CENTS

1795, Brown Unc, choice. This is a superb example of an early large cent that is very nearly a condition census coin. It lacks only some original mint lustre. Boldly struck and perfectly centered with rich glossy brown surfaces that are absolutely free of marks or other impairments. One of the finest 1795 large cents that we have ever offered.
. . . . . 3750.00

1796, Draped Bust, Third Reverse, Brown Unc. A beautiful and sharply struck example of a Nichols Find large cent. Lovely chocolate brown color and distinctly above average planchet and centering. An outstanding example of an 18th Century large cent.
. . . . . 1400.00

1797, Third Reverse, Stems. We are pleased to have in stock two outstanding examples of S-135 from the Nichols Find. The first is choice brown uncirculated and has proof-like surfaces and traces of original mint color along with attractive iridescent toning. It has typical centering for the date, but the strike is distinctly above average. We feel that it is an excellent value at
. . . . . 1650.00

The second 1797 is a choice red and brown uncirculated coin that is extremely well struck and perfectly centered. It has considerable mint red blending with magnificent golden-brown, blue and olive toning. It was formerly in the famous Milton Holmes Collection sold by Stack's in 1960, and is at least the equal of the outstanding S-135 that we sold from Rare Coin List Number 9.
. . . . . 2750.00

1806, Good 25.00
1811, Fair 35.00
1813, AU, choice 1200.00
1824, Fine 17.00
1839, Braided Hair, Fine 25.00
1843, Sixth Head, Large Letters, Fine

1857, Small Date, Choice Proof. The last year of issue for large cents and a scarce date in all conditions. Proofs, however, are very rare with no more than 25 to 30 in existence, most of which are not nearly as choice as this piece. The last proof of this date that we handled was lot 369 in our 1974 ANA Auction, but the coin we offer here is distinctly superior to the ANA piece that realized $2200. All proof large cents are very rare and desirable and in great demand by type collectors. We note a comparable specimen offered by a West Coast dealer for $3900 and therefore, we feel that at our price, this is a particularly excellent buy.

. . . . . 2500.00

1857, Large Date, VF 49.00

FLYING EAGLE CENTS

1857, VF 22.50

1858, Large Letters, Choice Proof. Proof 1858 Flying Eagle cents are exceedingly rare. In fact, they are much rarer than the highly touted 1856 Flying Eagle cent. Even so, there is very little difference in price. This is a excellent buy at only

. . . . . 3200.00

INDIAN HEAD CENTS

1859, EF 45.00

1864, Judd 358, Copper-nickel, Rarity 7 Proof. Identical in design to the regular issue 1864-L cent, the only difference being, of course, that this was struck in copper-nickel while the regular issues were struck on bronze planchets. Very rare and infrequently offered!

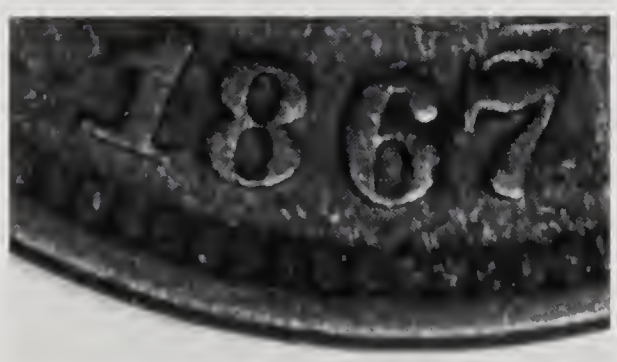
. . . . . 2000.00

1865, BU, choice, $75.00; Choice Proof 325.00

1866, Choice Proof 265.00

1866, Judd 456, Copper-nickel, Plain Edge, Rarity 6, Proof. This is a most unusual pattern in that it bears the exact design of the regularly issued Indian cents of 1866. Copper-nickel cents, of course, were discontinued two years prior to this coin's issuance! This coin will certainly bring many comments from the friends of its new owner. This interesting conversation piece is very reasonably priced at

. . . . . 550.00



1867, 67 Over 67, EF. A very interesting double punched date with a small "67" under the larger "67". This variety is clearly visible to the naked eye.

. . . . . 89.00

1867, Choice Proof 325.00

1871, Red and Brown Unc. A scarce date in any condition but especially so in mint state. This specimen retains much of its original mint red. Very reasonably priced at only

. . . . . 219.00

1873, Proof. This is the closed 3 variety as are all proof 1873 Indian cents.

. . . . . 235.00

1877, Red and Brown Unc. This is, by far, the most desirable Indian cent in mint state. With a mintage of only 852,500, most specimens are weakly struck. The one we offer here is distinctly above average with flawless, toned surfaces.

1910, BU 11.00
1910-S, AU 28.00
1911-D, VF-EF, $12.00; AU 29.00

1914-D, Red and Brown Unc, $695.00; BU. By far the rarest regular issue Lincoln cent in mint state. This BU specimen is fully lustrous.
. . . . . 750.00
1920, BU 9.00

1923-S, Unc, choice. Although not the rarest Lincoln cent in uncirculated, this date ranks with the popular 1909-S VDB in overall rarity. Due to very poor striking at the mint during the mid 1920's, this date is exceedingly scarce fully struck. The specimen offered here is somewhat better than average with flawless surfaces. When comparing other prices, be sure to compare quality!
. . . . . 250.00

1924-D, Unc, choice. Like the 1923-S, this date is also usually poorly struck. The second rarest Denver Mint Lincoln cent.

TWO CENT PIECES

1873, Closed 3, Choice Proof. The last year of issue for this short-lived series. A very popular and elusive date.
. . . . . 795.00

NICKEL THREE CENT PIECES

1865, J-410, Proof. A rare pattern, very similar to the adopted design except that the date on the obverse is nearer the bust and, on the reverse, the ribbon ends are noticeably larger and reach down to the denticles. A Rarity 7 pattern (4 to 12 known). Although considerably rarer than the regular 1865 3¢ nickel proof, it is priced approximately the same.
. . . . . 750.00

1877, Choice Proof. The rarest and most elusive date of this short series. The exact mintage is unknown but most authorities estimate that less than 1,000 were struck. A proof-only date always in demand.
. . . . . 750.00

1878, Choice Proof. Another proof-only date with a mintage of only 2,350. It is interesting to note that *many* 1877 and 1878 3¢ nickels do not look like proofs. This is due to the fact that nickel was a relatively new metal to be used for coinage in the late 1800's. Due to its extreme hardness, minting techniques were not perfected to fully strike these coins. Frequently they lack the usual brilliance and sharpness found on other proofs. A virtually flawless specimen, certainly worth
. . . . . 319.00

SHIELD NICKELS

1865, J-416, Proof. A Rarity 7 pattern (4-12 known). This is the regular design which was officially adopted in 1866. Much rarer than the proof 1856 Flying Eagle cent of which well over 1,000 are known. A member of the popular transitional pattern series.
. . . . . 2500.00

1865, J-418, Proof. Another Rarity 7 pattern nickel. This unusual piece bears the No Rays design which was not officially adopted until mid-1867. Even though dated 1865, it is now believed that this pattern was struck in 1866 or 1867. A truly rare coin, much more rare in fact than the popular and high priced 1867 With Rays nickel in proof!
. . . . . 2500.00

1866, With Rays, Fine, $16.00; Choice Proof. This is the second rarest Shield nickel in proof, surpassed in rarity only by the 1867 With Rays, a specimen of which we sold in our last Rare Coin List. Several times as rare as the popular proof-only 1877 and yet it sells for relatively little more. It is an important type coin because With Rays Shield nickels were minted for

only two years and since the 1867 With Rays is extremely rare in proof, the 1866 is the only reasonably obtainable proof Shield nickel of this type. Proof-like uncirculated examples are often sold as proofs, but a true proof such as this one can easily be distinguished by the prominent center dot on the reverse.

. . . . . 1250.00

1867, No Rays, Choice Proof. Paramount was recently privileged to buy a virtually complete set of proof Shield nickels. This set, which we have broken up, was evenly matched with most of the coins fully brilliant and virtually free of carbon spots. Shield nickels have always been popular with our customers, so order early to avoid disappointment.

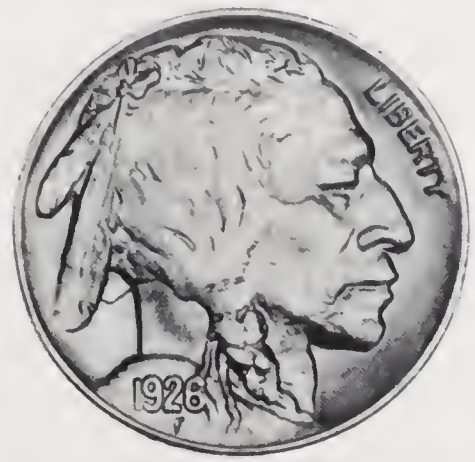
BUFFALO NICKELS Cont'd.



1926-S, BU, choice. With a mintage of under one million, this date is the scarcest of the entire series after the 1924-S and 1918/17-D in mint state. As with most branch mint Buffalo nickels struck during the mid 1920's, this date is usually weakly struck. Like the specimen sold in our Rare Coin List Number 11 a few months ago, this piece is well struck for the date and is more brilliant than usual. Certainly worth

HALF DIMES

1794, Unc, choice. The first year of issue of this two-year-type. Sharply struck and beautifully toned. Even though dated 1794, all were struck in 1795. As a date, the 1794 half dime is seldom offered for sale in any condition, and this is definitely one of the few opportunities you will ever have to acquire this rare date in mint state. The lack of the usual adjustment marks further enhances its beauty and value. Reasonably priced at only

The lighter issues are distinguished by arrows at the date. This "No Arrows" issue was struck in very limited quantity (135,000) and many of them were undoubtedly melted because of their high silver content.

DIMES

1802, AU. The second lowest mintage of this type with just 10,975 struck. The 1802 is very rare in every grade and prohibitively so above very fine. Prices for these early dimes in high grades are unrealistically low considering the rarity of the coins. This AU specimen shows only slight weakness on the left sides of the obverse and reverse. All lettering, however, is clear and distinct.
. . . . . 1800.00

1809, Unc, choice. Popular first year of type. Along with the 1822, the 1809 is the rarest date of this type. Slightly over 50,000 were struck but only a fraction remain today in all grades. Most of the auctions in the last several dozen years have had only circulated specimens of this date to offer. The obverse is a bit softly struck near the lower left rim, but this is typical for this date. Otherwise, this is a very well struck, deeply toned coin certain to please the most discriminating dime specialist.

1864, BU, Gem. This coin has beautiful light golden toning and absolutely immaculate surfaces. By a substantial margin it is the finest circulation Seated Liberty dime of this date that we have ever handled. In fact, it is one of the finest Seated Liberty coins of the entire Civil War period that we have ever handled. Although 11,000 pieces of this date were struck for circulation, compared to only 470 proofs, it is evident that most of the business strikes have been lost over the years since this date is far more common in proof than it is in uncirculated condition. We would be surprised if as many as 50 to 75 circulation strike 1864 dimes exist in *all* grades, and certainly few, if any, can match this superb piece.

QUARTERS

1805, AU. Draped Bust quarters are among the most popular type coins today. This short series (1804-1807) is consistent in that most specimens are weakly struck, as is this one. Very little wear is evident and traces of mint lustre can be seen. Full mint state specimens, even weakly struck ones, are very rare.

1806, AU, choice. A bit softly struck in the centers on both the obverse and reverse, but such weak striking is, of course, standard for quarters of this type. Draped Bust quarters in all grades are dozens of times more rare than the large or small Capped Bust quarters, and yet sell for surprisingly little more. Very few pieces as choice as this one come on the market in a year's time, and actually this is the kind of quality that most dealers eagerly call "Choice BU". It does have just a trace of wear, however, but nevertheless, it is an outstanding coin that is deserving of a place in a high quality type set.

1827, Original With Curled Base 2 in the Denomination. Proof. Without a doubt, the 1827 Original quarter is one of the rarest and most desirable of all U.S. silver coins and many have proclaimed it to be even more desirable than such famous coins as the 1804 dollar, the 1885 Trade Dollar, and the 1894-S dime. This specimen has beautiful dark blue, green and gold toning on the obverse and lighter golden toning on the reverse. With superb mirror surfaces, this is possibly the finest of the 10 known specimens. Ex James A. Stack Collection.

1827, Restrike With Square Base 2 in the Denomination. Proof. An unbelievable coin that shows absolutely no traces of die rust. The only other specimen of the dozen or so existing restrikes that does not show any signs of rust is now impounded in the Louis Eliasberg Collection. Like the Eliasberg coin, this piece is struck over an early quarter of the type issued from 1804 to 1807. Because the other known specimens (except for the Eliasberg coin) all show evidence of considerable rust on the dies, it is quite possible that this coin was struck much earlier than the 1858-1860 period generally assumed to be the time when all 1827 Restrikes were made. The 1827 Restrike quarter is almost identical in rarity to the Original just offered. The Winner Delp coin sold in 1972 and the Century Sale coin sold by Paramount in 1965 are the only restrikes other than this one to be offered for sale in the past decade. Both of those pieces were heavily rusted, however, and therefore not nearly as desirable as this coin. The Century Sale coin is now being offered by a prominent West Coast dealer for $35,000. From the standpoint of quality alone, this is as fine a proof Seated Liberty quarter of the period as we have ever handled. Only six specimens are known and this is certainly the finest, or at least equal to the finest, of the six. Small Date 1842 quarters exist only in proof, and were issued as part of 1842 Proof Sets. Virtually every major quarter sale of the 20th Century was lacking this great rarity. Two of the six known specimens are permanently impounded in the Smithsonian Institution and American Numismatic Society respectively. Three others are in private collections and are not likely to be offered for sale in the foreseeable future. This pattern is a part of the highly desirable and popular transitional series. The three popular transitional quarters of this type, 1863, 1864, and 1865, are all extremely rare with the 1864 being the rarest of the three. 1849, Choice Proof. One of the rarest of all U.S. proof coins with at most five or six specimens known. We are proud to say that this is the second example of this great rarity that we have handled, the other one being sold to John J. Pittman at our 1967 Grand Central Auction. Of course, all proof halves of the 1840's are rare, but the 1849 half dollar is far and away the rarest. In the last three decades there are only three auction records for this date (World's Greatest Collection 1945, Grand Central 1967, and James A. Stack Collection 1975). This is the Stack specimen. So rare that it is essentially irreplaceable no matter what the price.

. . . . . 12,500.00

1852, Gem Proof. Even more rare than the fabulous 1849 just offered. In fact, we have found only one auction record for this piece, that being a B. Max Mehl Auction of November, 1919 where a proof 1852 half dollar realized $71! This was three to four times higher than other proof half dollars of the same period. No other auction record can be found for this probably unique proof piece. When we showed this coin to other dealers, the reaction was one of amazement and a typical comment was, "I didn't know they made 1852 proof half dollars!" The coin is gem quality with attractive natural toning and excellent, mark-free surfaces. Because of the characteristics of this coin, it is evident that it is a restrike probably struck circa 1858-1860 when the 1852 proof dollar was also restruck along with various half cents, Gobrecht dollars, 1827 quarters and the like. But although there are at least small numbers known of the others mentioned, this is the only traceable 1852 proof half dollar. Since no amount of money could buy you a comparable piece, we feel our asking price of $17,500 is a bargain.

Oftentimes the uncirculated pieces appear to be proof due to the fact that they were struck in such limited quantities that the dies still retained much of their original polishing. The uncs can usually be distinguished from proofs upon close examination and comparison with a known proof. This specimen is lightly toned and well struck. Certainly worth

faces and delicate violet and brown toning around the periphery. The 1892-S is very scarce in all grades (for example, even a fine specimen sells for close to $100) and strictly uncirculated specimens are very rare. In fact, over the past few years we have seen more choice examples of such highly regarded dates as the 1896-S, 1897-O, 1897-S, and 1903-S than we have of this rare date. In our opinion, the rare date Barber half dollars are decidedly underpriced compared to the common dates. A common date in this condition is worth close to $500, and so this 1892-S, which is at least 10 times as rare as any common date, is an excellent buy even at the seemingly high price of $1150. We think this would be an excellent choice for a superb quality type set, just because the condition is so absolutely incredible. Of course, the type collector would have the bonus of owning possibly the finest known example of one of the rarest dates in a series as well.

As we mentioned when commenting on the 1892-S, we feel that rare date Barber half dollars such as this 1913-S are extremely underpriced compared to the common dates of the series. This piece is many times as rare, for example, as an 1892, and yet this superb example is available to you for only about double the price of the latter.

Any strictly uncirculated Bust dollar such as this one is very rare, and this beautiful coin undoubtedly ranks with the half dozen finest known examples of this overdate. We buy and sell millions of dollars worth of rare coins every year, and yet we consider ourselves fortunate to handle two or three uncirculated Bust dollars in a year's time. To be sure, many other dealers advertise "Uncirculated" Bust dollars, which might lead many collectors to believe that they are more common than they really are. But anyone who collects early dollars or who has even followed them closely, realizes just how rare a strictly uncirculated Bust dollar is. All the hair detail is full and every star is full and sharp right to its center. The eagle's wing, neck, and tail feathers stand out in bold relief and the coin is very well centered with broad, even denticles. The fields are also remarkably clean, and the beautiful gray and gold toning gives this coin a superb overall appearance. As a type coin, it could hardly be surpassed.

LIBERTY SEATED DOLLARS

1839, Gobrecht Design, Stars on Obverse, Eagle in Plain Field on Reverse, Reeded Edge, Choice Proof. Although the most common variety 1839 Gobrecht dollar, this coin is still a rarity. . . . . . 2250.00

1848, Choice Proof. Attractive medium toning and excellent surfaces that are far more free than usual from the hairlines that seem to be standard on early proof coins. As a date, the 1848 is the rarest silver dollar of the 1840's. Only 15,000 were minted and the coin is seldom available in any condition. For this reason, proofs are doubly popular even though they are comparable in rarity to the other dates of this decade. This is the first 1848 proof dollar that has been offered for sale in several years. It is certainly just as rare as any date in the 1850's, including the highly touted 1851 and 1852, and is, in fact, three or four times as rare as the famous and popular 1858.

. . . . . 3500.00

1850, Choice Proof. Beautiful violet-brown toning. The quality of the surfaces are excellent and free from noticeable hairlines or other impairments. Since the 1850 has a low mintage of 7,500 pieces, most known specimens are proof-like. As a result, many pieces have been offered over the years as proofs, when in fact they were merely first strike uncs.

Unfortunately, this has led some collectors to believe that the 1850 is really not all that rare in proof, but a genuine 1850 proof Seated Liberty dollar is indeed a rarity. Certainly no more than 15 to 20 exist, and very few are as choice as this one.

In our 1973 NASC Sale and again in our 1974 ANA Sale, we had excellent runs of proof Seated dollars (neither sale contained the 1848!). The fields are clean and unmarked, and this beautiful coin certainly rates as one of the top four or five known examples of this extremely rare date. Only 2,300 pieces were struck and undoubtedly the vast majority of them were melted before reaching circulation. Next to the 1873-S (which is unknown in any collection) and the extremely rare 1870-S (only seven or eight specimens known), the 1873-CC is the rarest and most desirable of all Seated Liberty dollars.

MORGAN DOLLARS

1878, Judd 1550, Silver, Reeded Edge, Rarity 5, Choice Proof. In addition to being a magnificent pattern, this silver dollar is as beautiful as any Morgan dollar could be! This pattern design is very similar to that which was officially adopted for the popular Morgan dollar series. Two noticeable differences are the use of smaller stars on either side of the words ONE DOLLAR and the use of only three leaves on the olive branch held by the eagle. A magnificent balance between deep peripheral toning, magnificent mirrorlike fields and frosted devices truly place this coin in the "ultra-quality class".

Both at auction and through our Rare Coin Lists, we have sold a number of truly choice 1892-S dollars, including the beautiful Keller and Davies specimens. We also sold an MS-70 proof-like 1892-S back in the fall of 1972 that, until we purchased this coin a short time ago, was the finest 1892-S Morgan dollar that we had ever seen or handled. This coin, like the one we sold in the fall of 1972, is a flawless MS-70 specimen, and is magnificently toned. Not a single bagmark can be found on its surfaces, and it is obvious that the coin has seen and enjoyed great care over the years. The Morgan dollar series has always been one of the most popular of all U.S. coin series, and collectors strive to obtain the finest, most bagmark free pieces that they can. Naturally, the rarities of the series, namely the 1892-S and 1893-S, present the greatest challenge and, therefore, it is with considerable pride that we offer this incomparable 1892-S in this Rare Coin List. It is matched in quality only by the 1892-S previously mentioned, but in our estimation, it actually exceeds that outstanding piece in overall desirability because of its superb toning. If you like your coins "bright" and shiny" or if you like to dip silver dollars as many collectors like to do, please do us and numismatics a favor by *not* ordering this coin. However, if you want the finest, most beautiful 1892-S dollar that you can conceive of, then do not wait another minute. Call us right now!

1895, Choice Proof. Light iridescent toning and immaculate surfaces. As nice an 1895 proof dollar as one is likely to find. This is the lowest mintage Morgan dollar with only 12,880 pieces struck. To the best of our knowledge, no uncirculated piece is known or reliably reported, and it is probable that the 12,000 circulation strikes were melted and never released. 1856-D, AU. Our new publication listing and analyzing the auction records of United States Gold Dollars clearly indicates that the 1856-D is one of the major rarities of this series. It has appeared at auction fewer times than the 1861-D and much less than either the 1855-D or 1860-D. Strictly uncirculated specimens are almost nonexistent, and no uncirculated piece has been offered for sale since the Jay Sale of 1967. This is one of the finest examples of this date that we have ever handled and it is much more sharply struck than usual. The planchet is also distinctly above average. As always, the U in UNITED is weak. The coin exhibits most of its original mint lustre. A real prize for the gold dollar collector.

QUARTER EAGLES ($2½ Gold)

1804, 14 Star Reverse, BU, choice. Rich golden toning and partially proof-like surfaces. There are a few very faint handling marks on the obverse field, but the reverse is simply stunning, grading a full Unc-65. The coin is very boldly struck for an early quarter eagle (only the second and third stars and a few of the denticles are weak), and all things considered, this rates as one of the finest, if not *the* finest, 1804 quarter eagles in existence. A mere 3,324 quarter eagles were struck in 1804, most of those being the variety with the 14 Star Reverse. Of that small total mintage, most have long since been lost to collectors and probably no more than 40 to 50 still exist today. The majority of them grade in the very fine to extremely fine range, and, in fact, in the 226 catalogues used to analyze the auction records for our upcoming publication on quarter eagles, the 1804 quarter eagle was offered only 8 times in uncirculated condition and a like number of times in about uncirculated. All other offerings were of specimens that graded extremely fine or less. We have seen only one comparable 1804 quarter eagle in recent years (the piece in Stack's "Winter" Sale of February, 1974), but that piece was not as sharply struck as this one, and it also had numerous adjustment marks on the reverse. This coin is most unusual in that it is totally free of adjustment marks, and it certainly rates as one of the finest U.S. gold pieces that we have ever offered for sale.

. . . . . 14,500.00

1805, AU. All quarter eagles struck between 1796 and 1807 are rare. The 1805, with a mintage of only 1,781, is among the rarest of them all. Today, of course, only a small fraction of the original mintage can be accounted for and most specimens are well worn. This coin is exceptionally well struck with a few very minor adjustment marks evident on the reverse. This rarity is priced at only

1807, AU, choice. With its mintage of 6,812, this is the most common Capped Bust quarter eagle. Although "common" by early quarter eagle standards, this is only the second specimen of this date that we have been able to offer in recent years. This well-struck coin has a few very minor adjustment marks on the reverse which do not, in any way, detract from its overall outstanding appearance. An ideal type coin.

1821, AU, choice, $12,000.00; BU, choice, Proof-like. Another incredible coin which is boldly struck with full, original lustre and proof-like surfaces. It undoubtedly is one of the finest examples to be offered in several years. A rare date lacking in many major quarter eagle collections.

1827, AU. A most elusive date (mintage: 2,800). This is the only example of this rare date that Paramount has had to offer since we sold a gem uncirculated specimen from Rare Coin List Number 8 well over a year ago. This rare, AU specimen retains considerable mint lustre and clean, unmarked fields.

Further investigation reveals that 4,000 specimens dated 1845 were struck in January of 1846. Seventy years ago, when first discovered, specimens of this date sold for as much as $300 which, at the time, was an extraordinarily high price for a coin. Since then, several dozen additional specimens have appeared. It remains, however, one of the rarest dates of the series. In all probability less than 100 specimens have surfaced.

1854-O, VF, $129.00; BU, Gem. Incredible blazing mint lustre, with a proof-like halo around the head and eagle. More sharply struck than most specimens seen despite a slight weakness on the right leg of the eagle and on a few of the obverse stars. Prominent clash marks around Liberty's face. Reasonably common as a date, but extremely difficult to obtain in full mint state. In fact, in our survey of 226 auction catalogues, the 1854-O was offered in uncirculated condition a mere 6 times, the last time being at the ANA Auction in 1966. 1860, Choice Proof. Rich golden toning and excellent surfaces. The Proof mintage of 112 pieces is relatively large compared to the mintages of other proof quarter eagles of this period, but it is probable that many of them were melted because the 1860 proof quarter eagle is really no more common than many other dates with much lower proof mintages. For example, in 226 selected auction catalogues of the past half century, the 1860 quarter eagle was offered in proof only 14 times. In the same 226 catalogues, the 1862, with a proof mintage of 35 pieces, was offered 16 times, and the 1863, with a proof mintage of 30 pieces, was offered 18 times. This beautiful 1860 is the first of many outstanding proof quarter eagles in this list.

1867, Gem Proof. Superb, flawless surfaces and beautiful reddish-gold toning. As choice as the day it left the mint, and fully equal in quality to the superb 1866 we sold from Rare Coin List Number 11 or the 1864 that we sold in Rare Coin List Number 9. A mere 50 proofs were struck out of the total mintage of only 3,250, and in the 226 catalogues we analyzed for our upcoming publication on quarter eagles, the 1867 was offered in proof a mere 8 times compared to 15 offerings of the identical mintage 1864. A great rarity in unimprovable condition.

1870, BU. Full frosty mint lustre and only a few very minor handling marks. Boldly struck without the slightest hint of wear or rubbing. The 1870 is a very scarce date with a mintage of only 4,555 pieces. Most of those offered over the years have graded extremely fine or less and in the 226 catalogues surveyed for our book on quarter eagles, this rare date was offered in uncirculated a mere 7 times. Very undervalued considering its true rarity.

1871, BU, choice, Proof-like. Exceptionally well-struck with full mirror-like surfaces that would make some collectors believe that this is a proof. It is a first strike unc, however, one of just 5,300 pieces struck for circulation. (There were also 30 proofs minted.) We have not seen a comparable piece in a number of years and, in fact, there have only been 11 appearances of an 1871 uncirculated quarter eagle at auction in the catalogues we researched for our soon-to-be published book on quarter eagles. Like the 1870 just offered, substantially undervalued and not readily obtainable at any price.

Paramount's growth in the last 10 years has been nothing less than unbelievable. Today, over 200 people are employed in our various divisions and subsidiaries, both in the United States and abroad.

Our Rare Coin Department is one of the largest in the world. Its staff is committed to the task of bringing you the highest quality rare coins at the lowest cost. Our rare coin buyers are constantly looking for quality coins at the major coin conventions, auctions, and from private collectors. Right now, our buyers are particularly busy just trying to buy quality coins to offer our customers in our Rare Coin Lists. For over a year, "gem quality" coins have been next to impossible to acquire so we are always looking to buy quality collections. If you have such coins to sell, please call us for our generous offer!

Our order processing people take extra pride in their work. When an order arrives, it is quickly routed to the proper department for rapid processing. All incoming orders are carefully checked, and double checked, thus ensuring you of properly graded and described coins. Members of our rare coin staff belong to and subscribe to the codes of The American Numismatic Association and The Professional Numismatists Guild.

Even though we are a large company, we never forget the fact that individual collectors made us what we are. Our Personal Service Department works with customers on a one-to-one basis. These people are thoroughly trained in helping collectors with their specific needs. In fact, all of these people collect coins themselves so they are very particular about quality! These professionals are here to help you complete a date set of silver dollars, half eagles, or whatever you might collect. It makes sense to use our Personal Service Department which is available to you at *no extra charge*. Just call 513–836-8641 (collect) and ask for the Personal Service Department. One of our knowledgeable counselors will be immediately assigned to you to help with any numismatic need. Every time you want a particular coin, just call your counselor. He will also be happy to seek specific coins for your collection and contact you when they become available.

You see, even though we have grown into a large company, we haven't forgotten you – the important individual collector or investor.

1875, Gem Proof. With a miniscule total of only 420 pieces minted, including 20 proofs, the 1875 has the fourth lowest mintage of any Liberty Head quarter eagle. Only the 1841, 1863, and 1854-S have lower mintages and the first two are proof-only dates. The only choice proof 1875 to be offered at public auction in the last five years was the piece in Stack's May 1972 Sale, and there have been only two other offerings of choice, unimpaired proof 1875's in the last decade, one at Lester Merkin's October, 1969 Sale, and one at the Grant Pierce Sale in 1965.

The proof mintage of only 20 pieces is the lowest for any quarter eagle after 1859, and in our opinion, the 1875 quarter eagle is more rare in proof than the more famous 1863 which has brought as much as $50,000 at auction! This gem piece has absolutely no hairlines or other impairments and has a beautiful rich golden toning. It is in the same superb condition as it was when it left the mint exactly 100 years ago, and it will certainly be the highlight of any outstanding quarter eagle collection.

1877, BU. A beautiful example of this rare, low mintage date. The coin has beautiful reddish-gold toning and full original mint lustre. The surfaces are excellent with just a few very light and totally insignificant handling marks. Strictly mint state specimens such as this one are seldom offered and are always in great demand.

Strictly about uncirculated or uncirculated specimens are very rare and desirable, and proofs such as the piece we offer here are extremely rare, in fact, much more rare than any of the dates from 1879 to 1889. Of the 30 proofs originally struck, it is doubtful if more than 10 pieces still exist today and only a few of those can be considered as choice as this one. Except for the comparable coin we sold from our Rare Coin List Number 6 in the fall of 1973, there has not been another truly choice 1863 proof $3 gold piece on the market for nearly a decade. 1865, EF-AU, $1800.00; AU, choice, $2250.00; BU, Gem. A superb frosty *gem* coin with beautiful rose, gold-green toning. The strike and surfaces are outstanding. From a condition standpoint alone, this is just about as nice a $3 gold piece as one could ever hope for. With only 1,165 pieces minted, the 1865 is obviously one of the rarest dates in the $3 gold piece series. Most of the relatively few specimens that are available today grade extremely fine or less and even strictly about uncirculated examples of this date are extremely rare. This piece is a gem, however, and is one of no more than 3 or 4 known uncirculated 1865 $3 gold pieces. In fact, in full mint state, the 1865 $3 gold piece is actually significantly more rare than it is in proof! $3 gold pieces have long been one of Paramount's specialties, and over the last few years, we have sold such outstanding pieces as proofs of 1859, 1862, 1863, 1865, 1866, 1871, and 1876, the finest known uncirculated 1872, and many other superb pieces. We feel, however, that this gem uncirculated 1865 is one of the most significant threes that we have ever handled since it is the finest known specimen of one of the rarest dates of the entire series. A coin of this superb quality and great rarity is a bargain at any price, and we feel that it will sell quickly. Certainly it could not be replaced or duplicated at this price.

Only 30 proofs were struck and most of these are now impaired and difficult for many collectors to distinguish from regular circulation coins. True proofs are identifiable, however, since the obverse die of 1877-8 was used and has several distinguishing characteristics. These characteristics include a prominent rust pit in Liberty's hair. This coin is certainly equal to the finest of the dozen or so 1879 proofs still in existence and is definitely superior to those offered at public sale in recent years.

— Looking for a new field to collect? Why not investigate pattern coins. Many of these coins are more beautiful than the designs finally adopted, and the rarity of most can be counted as under 500 pieces. In fact, a mintage of 500 for a pattern coin makes it a "common" piece.

1880, BU, choice. Another rare date with a mintage of only 1,036 (including proofs). With such a low mintage some of the uncirculated specimens look similar to the proofs. This coin is definitely uncirculated with frosted, lustrous surfaces which are virtually perfect in every respect.

1881, Gem Proof. Superb, pristine and utterly unimprovable. As fine an example of this date that we have ever seen, and equal in overall quality to any proof $3 gold piece of any other date that we have ever handled. Toned a beautiful rich golden color which greatly enhances the coin's overall beauty. The 1881 has the lowest mintage of any regularly issued $3 gold piece with only 554 pieces struck, of which 54 were proofs. Perhaps as many as 20 to 25 proofs still exist (many of which are impaired) but at most 4 or 5 others are the equal of this incredible piece. An absolutely outstanding coin that is worthy of all the superlatives that one might care to bestow on it. In fact, in the 217 catalogues we surveyed for our forthcoming publication on U.S. $3 gold pieces, both the 1881 and 1882 were offered in proof just 25 times. Proof $3 gold pieces have always been one of our best sellers (the extremely rare 1859, 1865, 1866, and 1871 were sold from our Rare Coin List Number 10) and because of this coin's outstanding quality and extreme rarity, we expect it to sell quickly at just

HALF EAGLES ($5 Gold)

1796, 6 Over 5, EF-AU. Deep golden-orange toning. Well-struck and perfectly centered. Virtually all of the feather detail on the eagle's breast is sharp and the fields are unusually mark free. The 1796/5 is much, much rarer than the 1795 yet it sells for little more. Paramount is indeed fortunate to have handled 3 excellent specimens of this rare date in the past three years, but it may be a long while before we have another. After all, a look at auction records of the past decade indicates how rare this date really is and most great sales during that period were either lacking this date altogether, or had a badly worn or damaged specimen. For example, the Gilhousen coin was only VF-30, the DiBello coin was poor, and the 1971 ANA specimen was merely VF. Some sales have had as many as four 1795's and no 1796/5, and from the standpoint of the number of known specimens, we would estimate that there are less than half as many 1796/5 half eagles as there are 1795's!

1798, Large 8, 14 Star Reverse, AU. Well-struck and nicely centered with virtually full mint lustre. No adjustment marks and unusually clear surfaces for an early half eagle. This 14 Star Reverse variety is many times more rare than the 13 Star Reverse variety. The Red Book is just now beginning to show a reasonable difference in value between the two varieties, but in our opinion, this 1798 14 Star Reverse is still decidedly undervalued. Except for the 1795 Heraldic Eagle half eagle and the 1797/5, this is the rarest coin of this type, and no more than a few specimens come on the market during a year's time. The last piece we had was quickly sold from Rare Coin List Number 8, and we have not even seen another one since that time. More importantly, no comparable piece (this one is a beauty!) has been offered either publicly or privately in a number of years. Probably very close to the Rarity 6 level, or at least high Rarity 5.

1804, Judd 30, Silver Restrike, Plain Edge, Rarity 7, Unc 2900.00

1805, BU, choice. An exceptionally well-struck coin which is virtually free of bag marks or other impairments. There are, however, a few very faint adjustment marks on the reverse. Lustrous!

1814, 4 over 3, BU, choice. Boldly struck with full mint lustre and virtually no handling marks. Very underrated in this choice condition, and much less often seen uncirculated than the 1813, 1818, 1820, or 1823. Most specimens are well worn, usually in the very fine to extremely fine range. An inferior specimen sold last year at auction for $7000, and we recently noted another 1814/3 half eagle offered for sale at a price in excess of $20,000. Such a price is not unrealistic considering the rarity of this date in choice condition, but because the 1814/3, has never gained the charisma of some of the other dates of this extremely rare series, we have priced this choice uncirculated coin to sell at

1818, 5D over 50, BU, choice. This is the famous and rare blundered reverse die variety where the engraver mistakenly punched in a 50 and then corrected his error by punching a D over the 0. (This same blundered reverse shows up again on the exceedingly rare 1819.) This variety, comparable in rarity to the two other main varieties of 1818, is also distinguishable by a prominent die bulge running diagonally across Liberty's neck. This piece is one of the finest known of this variety and is probably matched by no more than a handful of comparable specimens. In fact, there are probably no more than 25 to 30 pieces known of this variety in *all* grades! This piece has beautiful deep gold and orange toning and no handling marks to speak of. Attractive and rare!

1820, Curved Base 2, BU. Another beautiful example of this rare type. Exceptionally well-struck with all stars and hair detail clearly defined. This coin has beautiful surfaces and toning as well as excellent pedigree. Ex Miles and Wolfson.

. . . . . 6900.00

1823, BU, choice. Full frosty mint lustre and beautiful deep golden toning. There is just a hint of a proof-like surface around the head of Liberty and around the eagle. All dates of this type are rare, and in fact, this series, which was issued from 1813 to 1829, contains some of the greatest rarities in American numismatics. Dates in the 1820's are particularly prized and coins such as this outstanding 1823 and the gem 1826 offered next are generally available only at auction. Although an occasional extremely fine or about uncirculated has appeared on the market, only the superb 1823 from the Fred Davies collection has been offered in uncirculated condition in the past few years. Except for a minor abrasion in the field near the second star, this beautiful coin is fully equal to the Davies specimen, and may well be the only choice 1823 that will be available to collectors in the foreseeable future.

. . . . . .15,000.00

1826, BU, Gem. A sensational example of this famous and highly regarded rarity. The strike is exceptionally sharp with every star struck up fully to its center. The hair detail on the head of Liberty and the feather detail on the eagle all stand out in bold relief. The coin has a delicate natural golden toning, and the fields are unusually free of even the faintest bagmarks or abrasions, indicating that the coin has enjoyed fastidious care over the past 150 years. The 1826 is one of the many great rarities of this type with no more than 25 or 30 pieces still in existence. To be sure, many of the existing specimens are choice uncirculated pieces like this one, but most of them are now safely tucked away in private collections and museums, and only a very few specimens, all of which are inferior to this gem, have been offered for sale either publicly or privately in the past dozen years. This great rarity has been both exciting and pleasurable for us to own, and we are confident that it will be one of the highlights of its next owner's collection, no matter how advanced or complete that collection might be.

. . . . . .32,500.00

1831, Large 5D, BU. A rare and underrated date, one that has been overshadowed by the other great rarities of this type, namely the 1829 Small Date, and both varieties of the 1832. Perhaps as many as 50 or 60 specimens exist, but most of these are fairly low grade, such as the example that appeared in our recent Grand Central Sale. This piece has very light golden toning and is very sharply struck and perfectly centered. There are only a few insignificant bag marks in the field and the overall appearance of the coin is outstanding. No superior 1831 has been offered for sale since the fantastic Judd coin was sold in 1962, and many outstanding sales, including the 1963 J. F. Bell Sale and the 1963 Million Dollar Fun Sale, were missing this rare date altogether, even though both collections had examples of virtually every other rare date.
.....14,500.00

1832, 13 Stars, Square Base 2, BU, choice. Beautiful yellow-gold color and full frosty mint lustre. A trifle softly struck on several obverse stars, the hair of Liberty, and on the eagle's right wing. (These striking characteristics are seen on most known examples of this rare date and variety.) The surfaces of this coin are excellent, with no bagmarks or abrasions that are visible to the naked eye. The 1832, 13 Star, Square Base 2, half eagle is one of the truly great rarities in the United States half eagle series. It is the third rarest date of this type, surpassed only by the famous 1829 Small Date (9 or 10 specimens known) and the 1832 with 12 Stars and Curled Base 2 (5 or 6 pieces known). We would estimate that no more than 12 to 15 of this rare date and variety are known, and many of those are in museums or permanent collections and are unlikely to be offered for sale to the collecting public. It is reported that another choice example of this date was sold in 1974 for more than $40,000, and therefore, we feel that this beautiful coin is an outstanding value at our asking price of just

1859-C, AU. Although a fairly common Charlotte half eagle in lower grades, this is an excessively rare coin in uncirculated condition. This piece, although not uncirculated, is still quite an attractive coin.

. . . . . 795.00

1870-CC, EF. First year of issue for the Carson City Mint. Early Carson City gold coins were not saved by collectors to any great extent and consequently most specimens became extensively circulated as the average grade for early CC half eagles is very good to fine. This coin is an exceptionally rare date in extremely fine or better. For this reason we feel our asking price is certainly a bargain!

. . . . . 3500.00

1878-CC, EF-AU. Although the 1878-CC does not have the lowest mintage, in our experience we have found it to be the most difficult CC Mint half eagle to obtain. At least we at Paramount have handled fewer examples of this date than we have any of the others. High grade specimens are virtually nonexistent and we are unaware of any 1878-CC that even approaches full mint state. Therefore, this piece is as nice as is likely to be available and because of its great rarity and overall attractiveness, should sell quickly at only

1891, Gem Proof. Deep golden toning and unmarked, mirrorlike fields. This coin is absolutely free of hairlines or other impairments and is equal in quality to the gem 1891 Proof half eagle we sold from Rare Coin List Number 7. Only 53 proofs were struck and because of the high attrition rate of proof gold coins over the years, it is unlikely that more than 25 or 30 pieces still exist today. Very few of these (the coin from Rare Coin List Number 7 was one!) could match this piece and certainly none could surpass it. This piece is from the famous Ullmer collection where it was lot 464 and described as "A Gem Specimen!". We agree wholeheartedly with the "Gem" appellation and feel that no finer quality proof half eagle can be located at any price. An outstanding buy for only

1909-O, EF. The lowest mintage date of the series! This is the only New Orleans Indian Head half eagle and as such it is in great demand. Shortly after 34,200 specimens were struck, the New Orleans Mint permanently ceased operations. This blemish-free EF will fit well in most half eagle collections.

EAGLES ($10 Gold)

1796, EF. Rare, second year of issue (mintage: 4,146). Very light wear on the high points and attractively toned. The 1796 eagle is much rarer than the 1795 but sells for relatively little more. This pleasing EF, virtually defect-free early eagle is priced at only

1797, Large Eagle, BU. The Small Eagle reverse was replaced by the larger, Heraldic Eagle design in mid 1797. The specimen we offer has a few very light bag marks and some minor weakness of strike particularly on the reverse above the eagle. Still an outstanding specimen of this date with considerable mint lustre. Certainly worth our asking price of

1801, BU, Gem, Proof-like. If you are a collector looking for a "finest available", this coin certainly fills the bill. This is an incredible example of this beautiful type with deep golden color and full proof-like surfaces. The head of Liberty is fully frosted! The slight softness in the first five stars (obverse) is typical for the date as are a few, barely noticeable, adjustment marks near the fourth and fifth obverse stars. Although the most common date of this type, few would approach the quality of this specimen.

1857-S, AU, choice. A very underrated date in all grades and particularly elusive better than extremely fine. This is the finest 1857-S we have seen or handled and feel that it is ***one of the finest known*** and very possibly ***the*** finest. It is boldly struck and has full mint lustre. The fields are remarkably clean and free of bag marks. Like so many Liberty Head eagles, this date is grossly underpriced and unappreciated. No more than a few specimens are available in a year's time in any grade, and the typically seen specimen only grades very fine. One of these days, investors are going to realize the potential of coins like this 1857-S and then watch prices soar!

1863, Choice Proof. The 1863 eagle is one of the rarest of all Liberty Head eagles in any grade. Only 1,248 pieces were struck, including 30 proofs. Not many of these 30 proofs have survived the intervening 113 years and probably no more than 10 or 12 exist today with a fair number of those impounded in museums or permanent collections. To the best of our knowledge, no proof 1863 eagle has been offered at public sale since the Wolfson Sale in 1962. In our survey of more than 40 of the greatest gold sales of the past half century, the 1863 proof eagle was sold a mere 8 times in the following sales: Bell 1944, World's Greatest Collection 1946, Atwater 1946, Memorable 1948, Menjou 1950, Farouk 1954, Melish 1956, and Wolfson 1962. The piece we offer here is outstanding, free of noticeable hairlines or other defects. There is one tiny copper spot on the cheek, but this is not an impairment and detracts from neither the appearance nor the value of the coin. This 1863 is one of the greatest gold rarities that we have ever been able to offer in our many Rare Coin Lists and we certainly expect that it will be many years before we are fortunate enough to handle another.

. . . . . .42,500.00

1869, Choice Proof. Virtually in the same rarity class as the 1863. Only 1,855 pieces were minted, including 25 proofs, and certainly no more than half of these proofs remain today. Despite the slightly lower proof mintage, the 1869 has appeared in proof more often than the 1863. However, very few could possibly be as choice as this one which has a deep reddish-gold color and excellent, mark-free surfaces. Most other 1869 proof eagles that we have seen had numerous hairlines, including the badly hairlined Ullmer coin which still brought $12,000 nearly two years ago.

. . . . . .24,000.00

1872-S, AU, choice. Beautiful golden toning and only a few minor handling marks. Very sharply struck on the reverse, and more sharp than normal on the hair around the face. This scarce, low mintage date (17,300 struck) is very underrated in high grade. We have never seen or heard of a strictly uncirculated example and therefore, this choice piece could possibly be the finest known. In our survey of auction records of 40 great sales over the past 50 years, the 1872-S was offered for sale ***only 15 times;*** 9 times in extremely fine, 5 in very fine, and one in fine. This gives an accurate indication of the true rarity of this piece, and we are convinced that one of these days, collectors and investors will finally realize how rare many of the Liberty Head eagles really are.

. . . . . 2250.00

1873, Choice Proof. The 1873 eagle is one of the most highly coveted in the series. Only 825 pieces were struck, including a mere 25 proofs. The vast majority of these proofs have long since disappeared and no more than 8 or 10 still exist today. The last appearance of this date in proof was in 1962 at the Wolfson Sale. In addition to this sale, there have been only six other auction records for the 1873 proof eagle in more than 40 great gold sales over the past half century. These include Roach 1944, World's Greatest Collection 1946, Atwater 1946, Memorable 1948, Menjou 1950, and Farouk 1954. Several of the known proofs are impounded, such as the ones in the Smithsonian, ANS Collection, and the Johns Hopkins University Collection. This is the first piece that has been offered to collectors in over a dozen years, and it may well be another decade before another one becomes available. Not only is the 1873 we offer here a great rarity, but this particular piece is also extremely choice, free of hairlines or impairments, and toned a rich, reddish-gold color. (NOTE: The piece we offer here is from the Memorable Collection that was sold in 1948.)

1920-S, BU,choice. Lustrous and brilliant with surfaces that are much freer than usual of the typical bag marks and abrasions. (A few minor bag marks on the eagle are all that keep this coin from the gem class.) Most 1920-S eagles are weakly struck at the TY of LIBERTY and the hair over the ear. However, this piece is a notable exception and is well struck in every regard. For years the 1920-S was considered to be approximately equal in rarity to the 1930-S, but it is now known to be at least two or three times as rare as the latter. In fact, the 1920-S is the third rarest date of this popular series after the 1933 and 1907 Rolled Edge (which is really a pattern rather than a regular issue). This particular piece is much nicer than the one that realized $17,000 at our 1975 NASC Sale and is certainly the equal of any that has been on the market in recent years.

DOUBLE EAGLES Cont'd.

1858-S, BU. Early double eagles in uncirculated condition are all scarce, if not rare. During the Gold Rush period, few San Francisco gold coins were saved in mint state. Most circulated extensively. The coin we offer shows the usual number of bag marks, but still retains its original mint lustre.

1869-S, BU, Gem. Deep golden toning and literally perfect surfaces that are free of any blemishes or marks whatsoever. A bit softly struck on a few of the obverse stars (standard for this date) and this trivial weakness in striking is all that separates this incredible coin from the grade of MS-70. By a substantial margin, it is the finest 1869-S we have ever seen (most examples of this moderately scarce date are extremely fine or less) and is, in fact one of the finest Type II double eagles that we have ever seen or handled of *any* date. No amount of superlatives can fully do justice to the quality of this piece and it must be seen to be believed; we do not hesitate to call it *the finest known.*

1872-CC, EF. As any gold coin collector will tell you, early Carson City gold is very scarce if not very rare. The 1872-CC double eagle (mintage: 29,650) is excessively rare in grades above extremely fine. In our 1974 ANA Sale, an AU specimen realized $2200. Although this coin is not of quite the same quality, it is still an excellent specimen of this scarce date and certainly superior to most available examples.

1879 Metric Double Eagle (Quintuple Stella), Judd 1644, Copper, Reeded Edge, Rarity 8, Choice Proof. Although the popular Stella ($4 gold piece) is more well-known, the Metric double eagle or Quintuple Stella is much rarer in both gold and copper. Only four or five gold specimens are known, one of which is in the Paramount-Wilkison Collection of U.S. gold patterns. Additionally, perhaps as many as five exist in copper. There are just a few auction records for Judd 1644 in the past decade, one at the 1969 Harmer-Rooke "Million Dollar" Sale and most recently at Superior's "Rio Rancho Estate" Sale. In both instances the cataloguers stated that at most three pieces were struck; this is not the case, however, as we can trace at least four different specimens and possibly five. Nevertheless, the Quintuple Stella is one of the rarest and most desirable of all U.S. patterns. This choice proof has beautiful light iridescent toning and is equal in quality to any of the few others in existence.

Paramount Publications Presents Three Important Books

Every numismatist must maintain a library of references to stay abreast of the many developments in this rapidly changing hobby-science of coin collecting.

Late last year, Paramount Publications introduced two fantastic books which have been wide acclaimed in the industry. They are:

1. *United States Gold Patterns,* by David W. Akers
2. *United States Gold Coins, An Analysis of Auction Records, Volume I, Gold Dollars,* by David W. Akers

Ordering information for *both* of these books may be found elsewhere in *this* Rare Coin List.

NOW, **we are pleased to announce a *third* book:**

United States Gold Coins, An Analysis of Auction Records, Volume II, Quarter Eagles, by David W. Akers.

Like the first two books, this will be a high quality, hardbound book. It analyzes the auction records of every date and mint quarter eagle from 1796 to 1929. Once again, Mr. Akers calls on his many years of experience with U.S. gold coins to bring the collector other important information about every date in the series, making this new book an extremely useful reference work.

Larry Stevens, well-known coin photographer, and Tom Mulvaney, Paramount's in-house photographer, spent many months assisting Mr. Akers making sure that *every* Quarter Eagle was clearly photographed by date and mint, obverse and reverse. Many of the coins illustrated are so rare that it became necessary to get permission from leading museums (Johns Hopkins, Smithsonian, etc) to take photos of their specimens. Paramount's own multi-million dollar inventory and photographic files were also used. In short, no expense was spared to bring collectors the most complete auction information including average grades encountered, number of appearances at auctions, plus other vital information for every date. a *minimum* of one page is devoted to each date.

This new book is NOW AVAILABLE for only $12.95. This outstanding 248 page reference belongs in *your* library. Just indicate "U.S. Quarter Eagle Book" on your order form.

Choice United States Sets

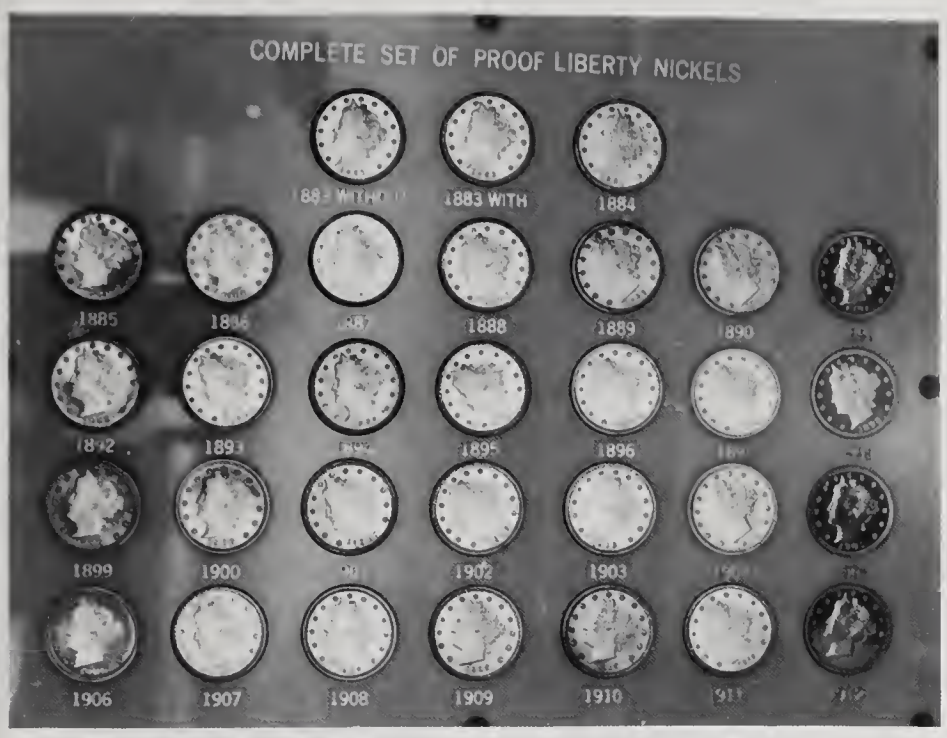
The Extremely Rare 1831 Proof Set

1831 Proof Set. This remarkable set lacks only the large cent, and of course the gold, from being complete. The 1831 proof coins were not issued in sets but only as individual pieces. All of the five coins offered here are extremely rare, particularly the half dollar of which there are only three or four known specimens. The half cent, half dime, and dime are only slightly less rare, while the quarter is the most common proof of 1831 with perhaps twelve to fifteen pieces known. The quarter in this set is the Large Letters variety and is an absolutely stunning piece. We can state without hesitation that it is the finest proof quarter of this type that we have ever seen or handled. The last small-size Bust quarter that we offered in proof was the 1834 in our 1972 ANA Auction, but we have not even seen another piece on the market since that time. In a careful study of auction catalogues, we found that no 1831 proof quarter has been offered for sale in the last 15 years, no half dime since the World's Greatest Collection Sale of 1946, no dime since Lester Merkin's April 1966 sale (where he stated "Only 2 or 3 known"), and we can find no record whatsoever of the half dollar *ever* appearing for sale in proof.

The half dollar in this set is equal in overall quality to the quarter. It has beautiful light toning around the edges and is boldly struck and perfectly centered. The fields are flawless, totally free of hairlines or other impairments. The dime and half dime are equally choice, the dime being mostly brilliant and the half dime having exquisite medium violet and brown toning. The half cent is also very choice (it is an original and not one of the later restrikes) and has only a few very minor carbon flecks on the obverse. It is the only proof 1831 Original Half Cent offered for sale since we sold a specimen in our 1965 Century Sale.

It will be difficult, if not impossible, to acquire any one of these pieces singly, and the opportunity to acquire all of them as a set is an opportunity that may never be repeated again. We have never seen a comparable set offered for sale, and we feel that it is one of the most outstanding and numismatically important items that we have ever had the privilege of owning. Not only is each piece in the set a great rarity in its own right, but the quality of each piece is truly remarkable and the set must be seen to be fully appreciated, although the above photos do go a long way towards showing you how superb the set really is.

We feel that our price of $30,000 for the five piece set is one of the bargains of the year, and if you are not completely convinced of that fact, we suggest that you attempt to buy just one comparable piece, much less a comparable set, at almost any price. If you do, you will certainly come up empty-handed. This is obviously the highlight of this Rare Coin List, and although it is far from the highest priced item we have ever handled, it is certainly one of the finest and most memorable **30,000.00**



COMPLETE SET OF PROOF LIBERTY HEAD NICKELS

Without a doubt, this is one of the finest sets of proof Liberty nickels that we have had the privilege of handling in recent years. Obviously, the previous owner spent many, many years searching for "just the right coin" for each date. It would seem impossible that a superior matched set could exist anywhere! All coins are fully brilliant, wholly proof-like, and free of hairlines. Carbon spots, which are so common on early nickel coinage, are virtually non-existent on any of these coins. As an added bonus, the 1903 proof nickel has a 180 degree rotated reverse! This extremely attractive set of all Philadelphia proof nickels is mounted in a specially made hard plastic holder. We have handled many proof Liberty nickels through the years, including other complete sets of proofs, but never have we seen better overall quality than this set offers. A collect telephone call to our Rare Coin Department will reserve this prize for your collection.

SET OF RING DOLLARS – JUDD 145

Original and Restrike. Here is a most unusual set of *gold* patterns, both Judd 145. There are three basic varieties of the 1852 Ring Dollar (J-145): thick planchet (AW 159) and original and restrike with thin planchet (AW 160). Overall it has been estimated that there are 20 to 25 pieces known. The majority are thin planchet restrikes and only a few are known of either the thick planchet variety (not included in this set) or the thin planchet original. This unusual set consists of the original and restrike AW 160. The original is distinguished by a die flaw under the second S of the word STATES. It also weighs 32.3 grains. The restrike is distinguished by a small die crack through the upper left side of the wreath before the word DOLLAR. Also, the restrikes tend to be somewhat concave in appearance and have a weight of only 25.8 grains. Here is a rare opportunity to acquire *two gold* patterns. This choice pair is mounted in a specially made holder and is priced at only

100 Perpera, 1910 Plain Head, Proof. Nicholas I is featured on the obverse of this major rarity. Very seldom available and usually offered only at major foreign coin auctions.

100 Perpera, 1910 Laureate Head, Proof. This is the second and rarest of the two 100 Perpera coins issued by Montenegro. The obverse features the Laureate head of King Nicholas I. The coat of arms is a dominant design on the reverse. This great rarity commemorates the 50th year of Nicholas' reign and marriage. Only 802 specimens were struck and like the other 100 Perpera piece also offered in this Rare Coin List, the vast majority of these were melted down after the war. Today only a few specimens can be traced and generally these are available only at major foreign gold auctions.

100 Francs, 1925, BU, choice. Many consider this to be one of the most beautiful gold coins ever issued. In addition, it is one of the rarest. The obverse features a girl's head with the Alps in the background. The Swiss cross, the denomination, and the date make up the reverse design. Only 5,000 were originally struck at the Bern Mint and most of these were later melted. It has been estimated that perhaps 100 still exist and this certainly must be one of the finest of them. The strike of this coin is breathtaking with all details clearly visible. The surfaces of the coin are fully lustrous with no impairments. An absolutely outstanding coin!

Dear Collector:

With this issue, we unveil the offerings of the new Foreign Division of our Rare Coin Department. Since last Spring, we have been carefully assembling a stock of choice and rare coins of the world. It was obvious to us that quality was of the utmost importance. But building a stock of top quality Foreign coins is a lot easier said than done. The going was slow but we attained our goal. While this listing is small in terms of the number of coins, we are very pleased with the quality and think you will be too.

It is certainly no secret that the demand for choice foreign coins is increasing constantly. In our Long Beach Auction Sale last August we had the privilege to offer some of the *best* quality Foreign coins that had ever come on the market. The results are now history and it was commonplace for these superb coins to bring multiples of their current catalogue values. If the past is any indicator of the future, these record prices will seem low indeed in the months and years ahead.

To complement our always popular listing of British coins, which we have expanded, we have added many unbelievably choice condition coins of the British Commonwealth. Early Russian Crowns are also well represented, highlighted by a rare specimen of the Poltina of Ivan III. As you study these pages, we are sure you will find coins of particular interest. Please telephone to reserve these items, as most of the coins are one-of-a-kind in our stock. Alternate choices will be appreciated as they greatly reduce the chances of a "Sold Out" notice.

We sincerely hope that you enjoy these lovely coins as much as we have.

Yours truly,

Raymond N. Merena
Vice-President and General Manager

Karl D. Hirtzinger

1925, 1 Cent. Matte Proof. Scarce date highly prized in the better grades. We are fortunate in having a Matte Proof to offer for sale. Rare in this grade, this lovely specimen is toned to a chocolate brown 349.00

1911, 5 Cents. Matte Proof. An attractive example of this one year of type. The words "Dei Gratia" were omitted in 1911 and is referred to as the "God-less" coin. This coin is from a specimen set of which 1,000 were issued. 175.00

1891, 25 Cents, Unc, choice. Scarce Victorian 25¢ with only 120,000 pieces issued. Strictly mint state specimens such as we offer here are worth far in excess of their current catalogue valuations. Virtually free of bagmarks and abrasions. Delicate pale golden toning, an exceptional coin. 975.00

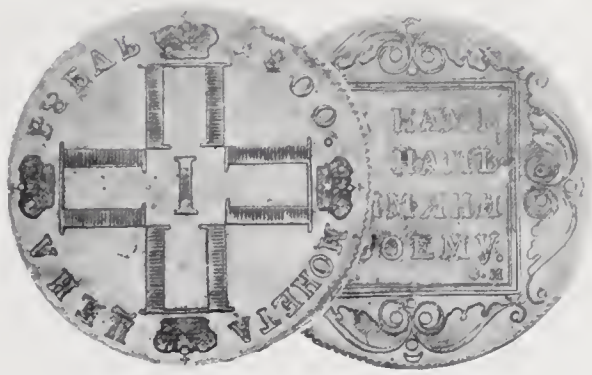
1741, Poltina or Half Rouble, 34 mm, VF. Small size crown of Ivan III, St. Petersburg Mint. Important for type as very few coins were issued during this reign. Ivan III was a year-old infant when he became Czar of Russia in 1740. His reign was short-lived and he was imprisoned the next year when Peter the Great's daughter, Elisabeth ascended to the throne. Ivan III died in prison 23 years later. Boldly struck, slightly off center. Clear fields attractively toned. Rare.
. . . . . 1450.00

— Expert cataloguing and photography are only two reasons why Paramount's auctions are so popular. The main reason is the high prices *your* coins will bring.

1762, Rouble of Peter III, St. Petersburg Mint, H.K. Mintmaster. D-1682. EF+. Only crown issued during this short reign. Peter III was Czar for less than 6 months when he was arrested by the Russian Imperial guard. He was succeeded by his wife, Catherine II. We are pleased to offer this lovely specimen, sharply struck with traces of lustre remaining and well centered.
. . . . . 650.00

1787, Rouble of Catherine II. St. Petersburg Mint. D-1686. VF-EF with considerable original lustre remaining.
. . . . . 225.00



1800, Rouble of Paul I, St. Petersburg Mint, Mintmaster O.M., D-278. AU, choice. Obverse with 4 Russian P's forming cross. Reverse with legend "not unto us, not unto us, but unto Thy name". Bold strike with considerable lustre and attractive toning.
. . . . . 425.00

— Paramount never asks the customer to pay the postage.

1804, Rouble of Alexander I. AU. St. Petersburg Mint. D-279. Obverse with Imperial double eagle, reverse with legend "Imperial Russian coin rouble". Sharp strike, lustrous
. . . . . 475.00

. . . . . 29.95

URUGUAY

1844, Montevideo Peso, Y-10; SDNSA-1. Unc. First crown of Uruguay and only year of type. Total mintage estimated at 400 pieces. An important South American crown. Rare in all grades, decidedly so in the higher grades. We are indeed fortunate in having *two* mint state examples to offer at the same time. This coin has full proof-like surfaces and beautiful pale violet toning. Struck slightly off center (as are most), some light adjustment marks on right of reverse, $1450.00; Uncirculated, fully lustrous with full frosty surfaces. A trifle better centered than the preceding with no adjustment marks. Another premium quality rare coin.
. . . . . 1695.00

1869-H, 1, 2, 4 Centesimo Copper Set, Y-7, 8 and 9. BU, choice. A much sought-after set in choice condition, South American coinage is just beginning to come into its own in the last couple of years.

Dear Collector:

Paramount is proud to announce the formation of a new division devoted solely to United States Paper Currency. The new division will be aptly entitled "Paramount Syngraphics". "Syngraphics" is a newly coined word and is being adopted by paper currency collectors throughout the United States; it was first used by Gene Hessler, author of the fine work *U.S. Paper Money,* who recognized the need for a definitive word describing this rapidly growing area of collecting. The word "Syngraphics" is to currency collecting as "Numismatics" is to coin collecting.

Early United States paper currency is unmatched for beauty. Superb design and artistry was brought to life by the world's finest engravers. The engraver's art was at its zenith during the 19th Century, reaching levels of perfection previously believed to be unobtainable. "Necessity is the Mother of Invention" and in the case of early U.S. Currency the dread fear of counterfeiting sparked the fanaticism for quality.

If you are considering entering a new area of collecting, you should give serious consideration to our Nation's early paper currency.

Offered for sale in this list are many rare notes in outstanding condition. Highlights include a beautiful $20.00 1869 Legal Tender, several "Brown Back" $10.00 Silver Certificates and a rare $5.00 "Porthole" Star Note.

In keeping with Paramount's policy, all grading is strict and conservative. You may order from this list with complete confidence.

We have spent many months acquiring the notes you are about to view and I can assure you that it is one of the finest assemblages ever offered.

Sincerely,

Stanley Morycz
Vice-President

United States Currency

The Following Terms Are Used To Describe Condition:

Gem — A term reserved for the finest possible condition. A state of perfection that seldom exists.

Unc — Crisp Uncirculated, new, never circulated.

AU — Almost Uncirculated, a note difficult to tell from Unc such as a new note that has been folded once.

XF — Extremely Fine, a crisp note that shows a slight amount of wear upon close inspection.

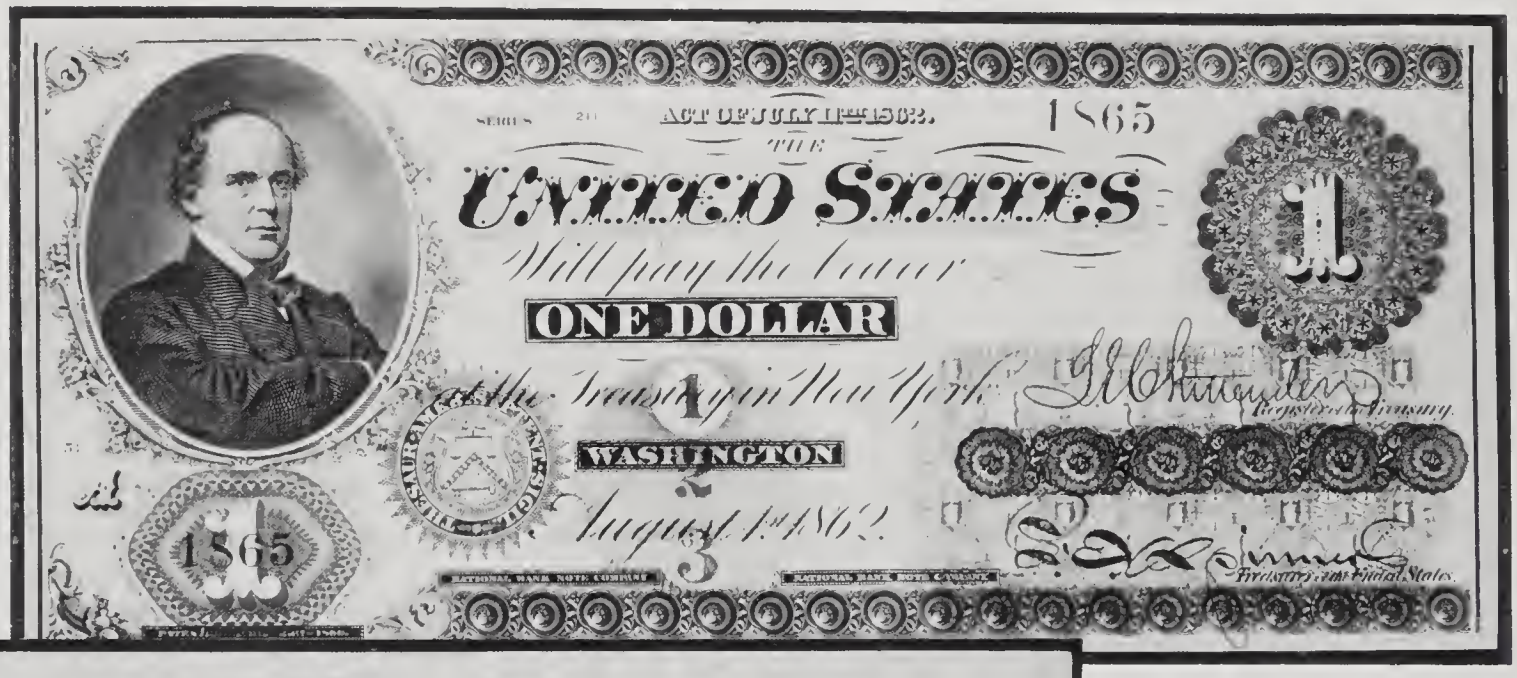
VF — Very Fine, a note that shows wear but still has some body and is pleasing in appearance.

F — Fine, a worn note, but still intact. Shows considerable wear, no mends or tears.

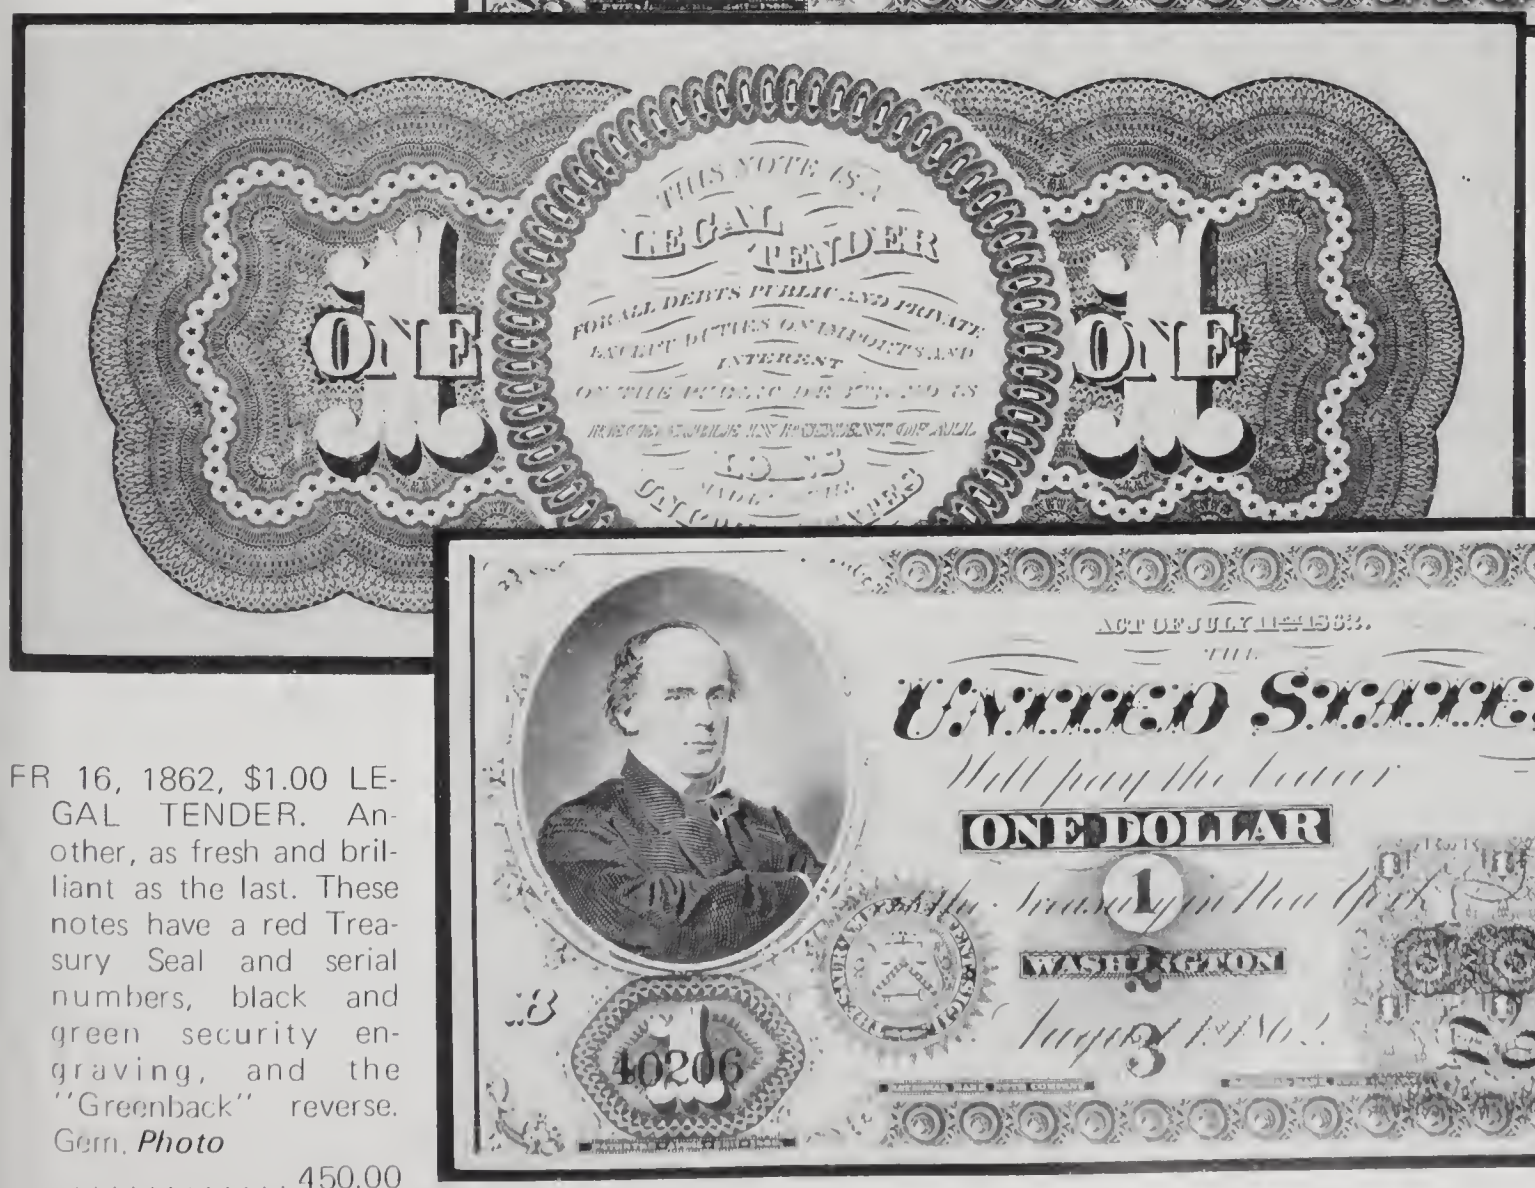
VG — Limp and worn, an unsightly note.

All Notes are Listed by Friedberg Numbers — Photographs are 75% of Actual Size

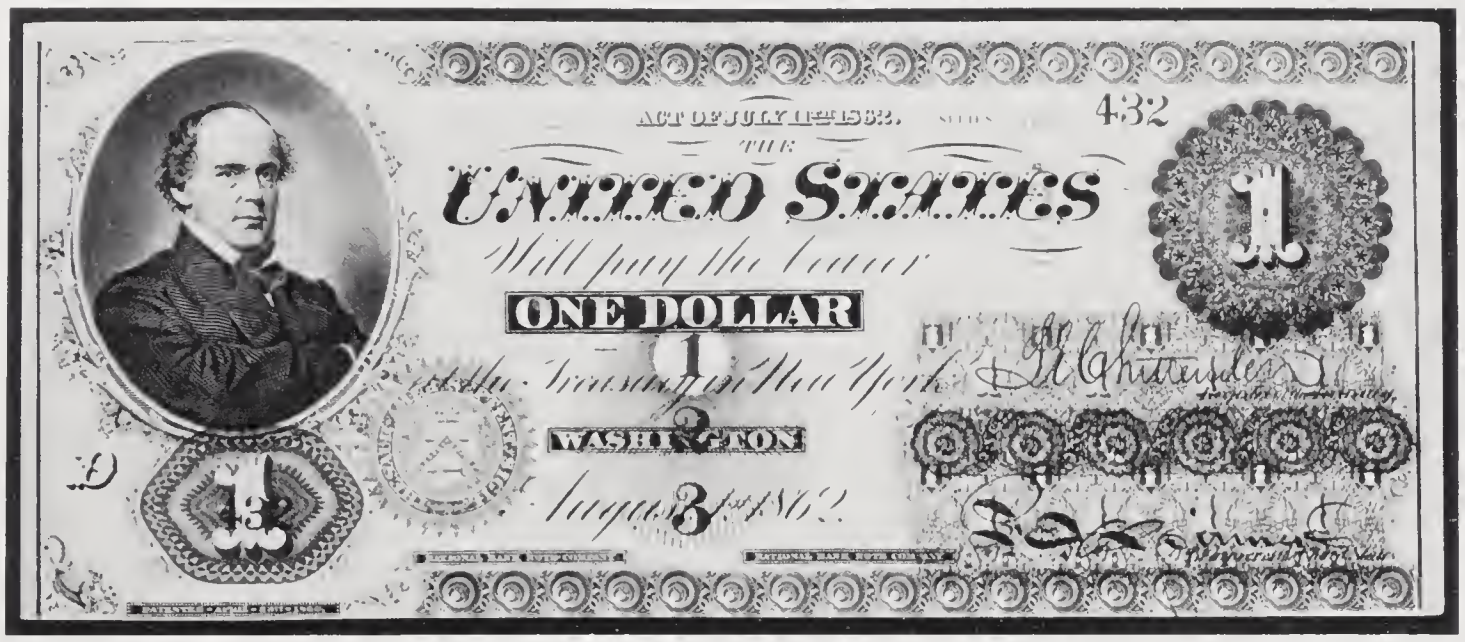
LEGAL TENDER



FR 16, 1862, $1.00 LEGAL TENDER. Our country's first $1 bill! Printed on delicate "bank note paper" by National Bank Note Company. The portrait is Salmon P. Chase, Lincoln's Secretary of the Treasury. These early notes are often found with poor margins. Here is a beautiful, fresh, Gem. *Photo* 450.00

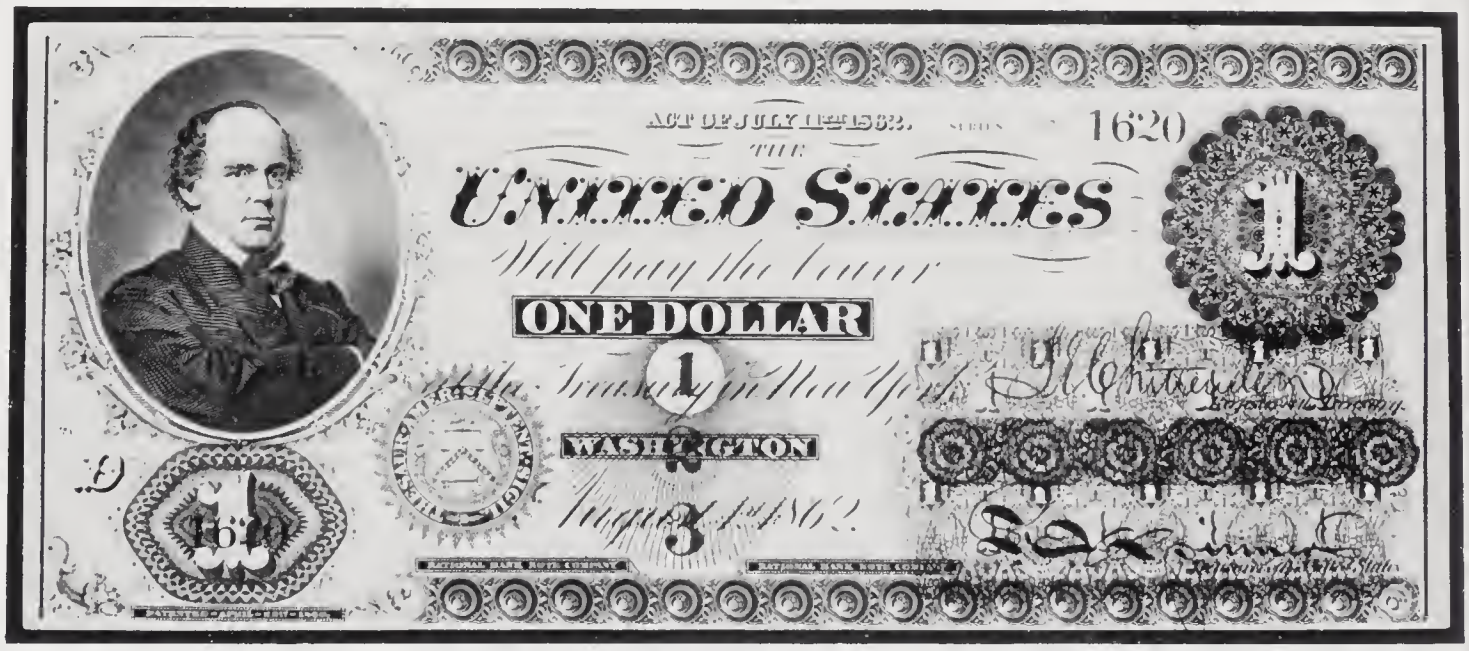


FR 16, 1862, $1.00 LEGAL TENDER. Another, as fresh and brilliant as the last. These notes have a red Treasury Seal and serial numbers, black and green security engraving, and the "Greenback" reverse. Gem. *Photo* 450.00



FR 16, 1862, $1.00 LEGAL TENDER. A very attractive note with a desirable low serial number (432). Unc. *Photo*

. . . . . 425.00

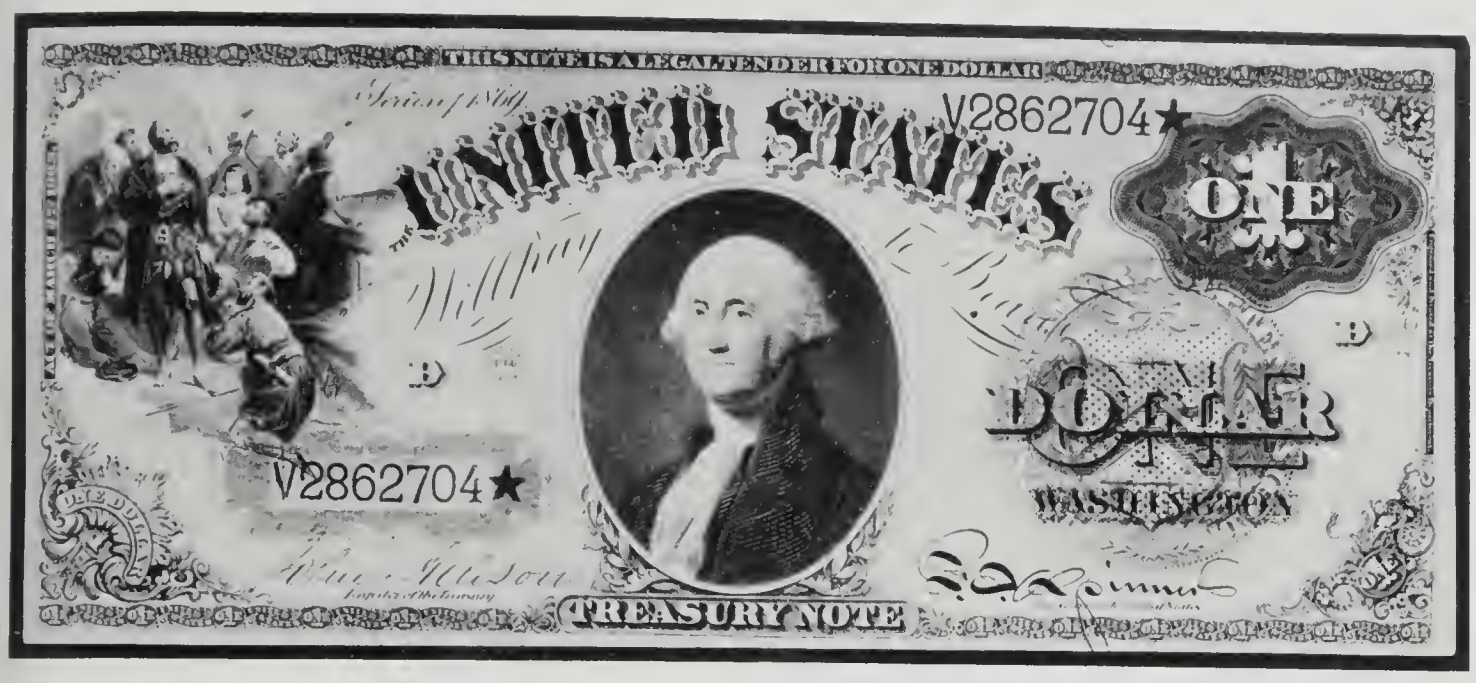


FR 16, 1862, $1.00 LEGAL TENDER. Bright and crisp, a tiny pinhead-size rust spot visible only on the reverse takes it out of the gem category. Unc. *Photo*

. . . . . 390.00

FR 16, 1862, $1.00 LEGAL TENDER. This "first United States dollar" is a must for the type collector. Unc. *Photo*

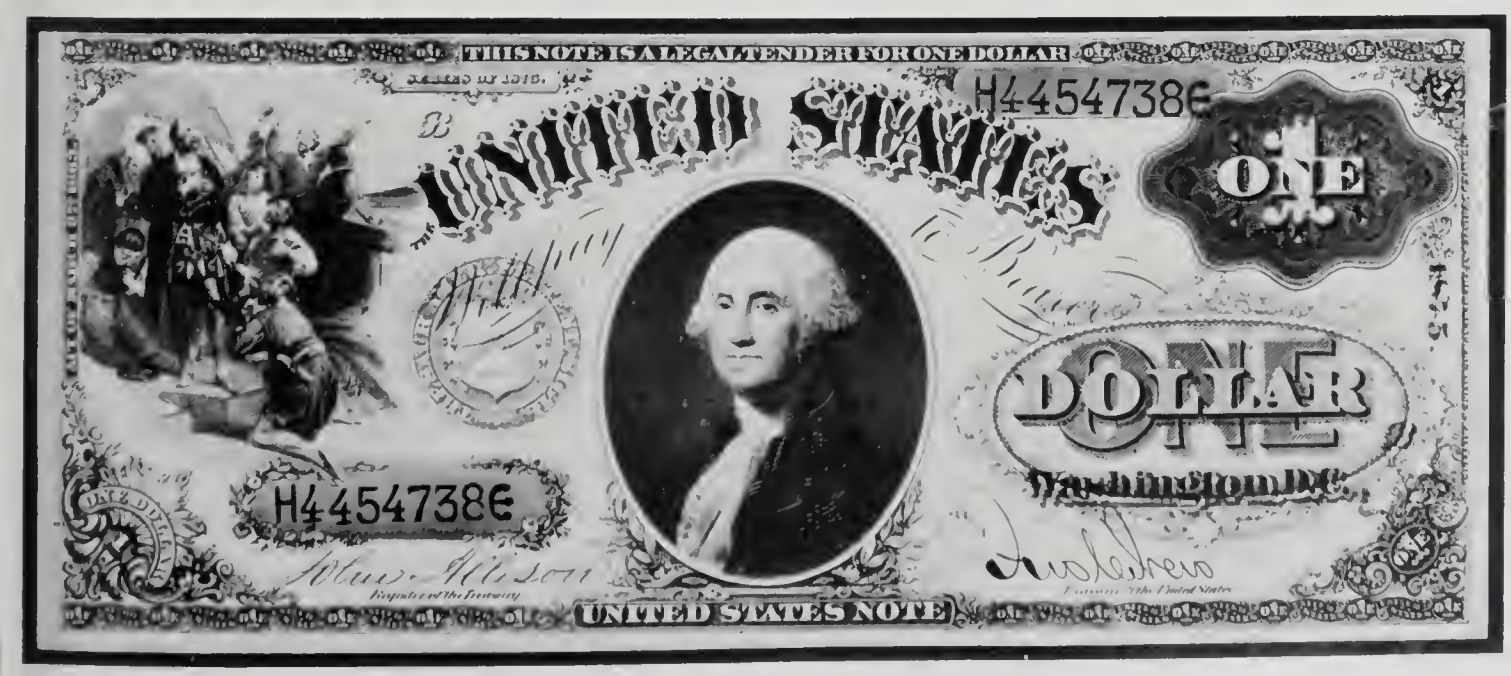
. . . . . 390.00



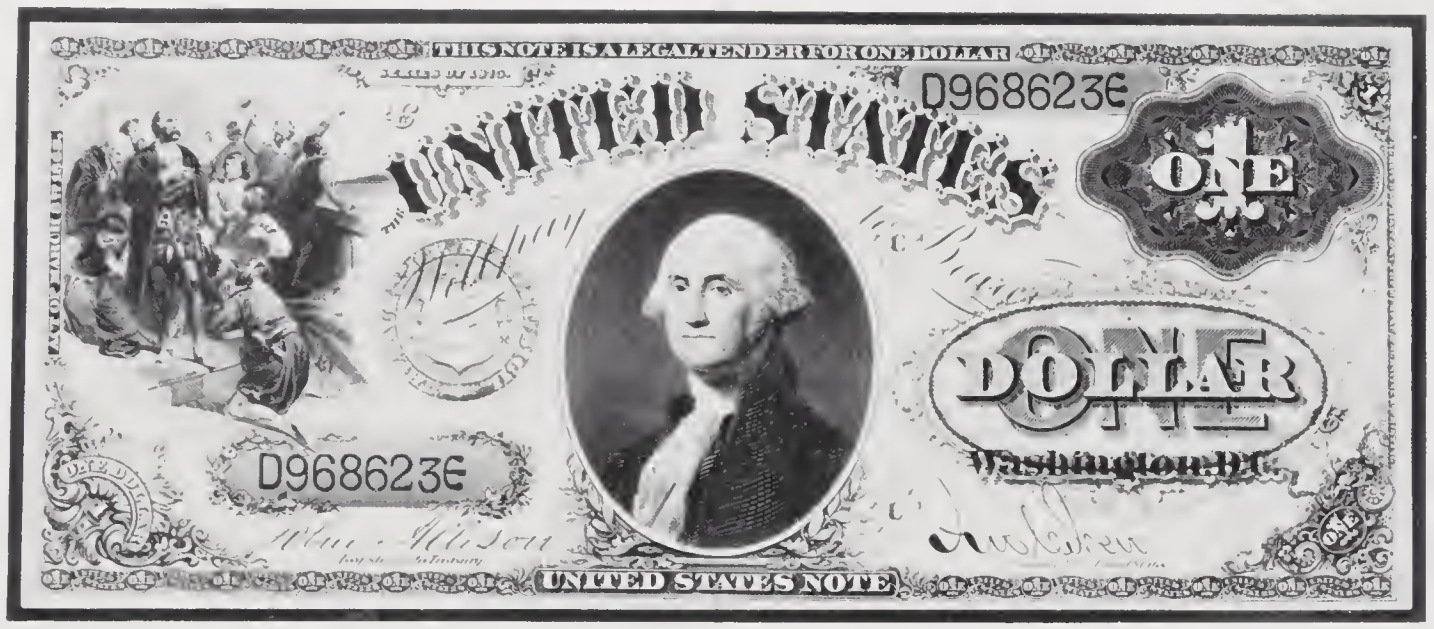
FR 18, 1869, $1.00 LEGAL TENDER. Popularly called the "Rainbow" series because of the lovely mixture of colors on the obverse. It took much searching to find this crisp, exceptionally centered note, a Gem. *Photo*
. . . . . 450.00

FR 19, 1874, $1.00 LEGAL TENDER. Similar to the 1869 series except the red Treasury Seal is now at left, with a red ornamental oval over "ONE DOLLAR" at right. Gem. *Photo*
. . . . . 385.00

FR 19, 1874, $1.00 LEGAL TENDER. Another, this with interesting serial number E755733. AU.
. . . . . 275.00



FR 20, 1875, $1.00 LEGAL TENDER. Similar to the 1874 issue, but the Treasury Seal and oval are now *pink. All* 1875 Series notes are underrated and extremely scarce in top condition. Unc. *Photo*
. . . . . 240.00



FR 23, 1875-C, $1.00 LEGAL TENDER. The series of 1875 comes with suffixes A, B, C, D, and E. This 1875-C is *the second rarest note in the entire $1 Legal Tender Series!* We don't know when we will be able to replace this magnificent specimen once it is gone. For your pride and pleasure we have a sparkling, unimprovable Gem. *Photo*

. . . . . 1150.00

FR 28, 1880, $1.00 LEGAL TENDER. Signatures of Bruce-Scofield on this attractive design with large brown Treasury Seal. Trimmed close at bottom. Unc.

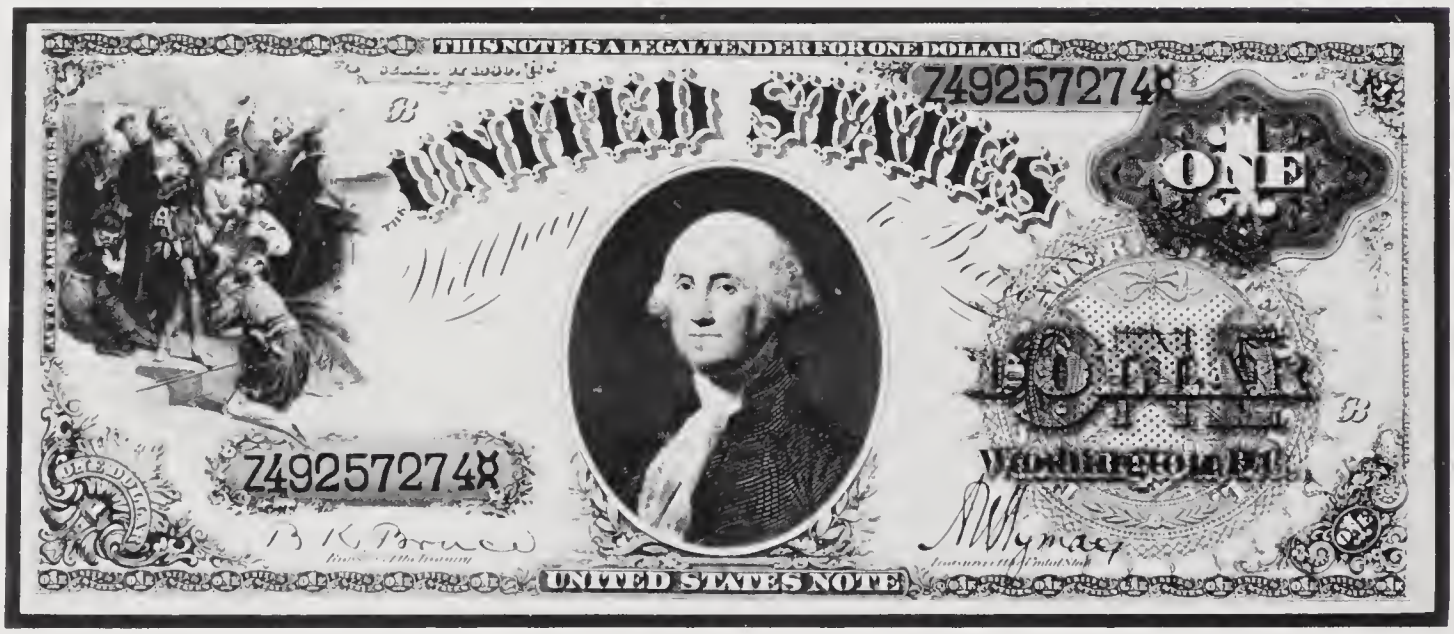
. . . . . 95.00

FR 30, 1880, $1.00 LEGAL TENDER. This note with the signature combination of Bruce-Wyman. Large chocolate-brown seal and red serial numbers. A beautiful and underrated issue. Most difficult to locate in this condition. Unc. *Photo*

. . . . . 165.00

FR 30, 1880, $1.00 LEGAL TENDER. A nice crisp note, Unc.

. . . . . 165.00



FR 35, 1880, $1.00 LEGAL TENDER. Small pink Treasury Seal and blue serial numbers on white paper. A tough note to find with the Tillman-Morgan signatures. Gem. *Photo*

. . . . . 285.00

FR 35, 1880, $1.00 LEGAL TENDER. Unc

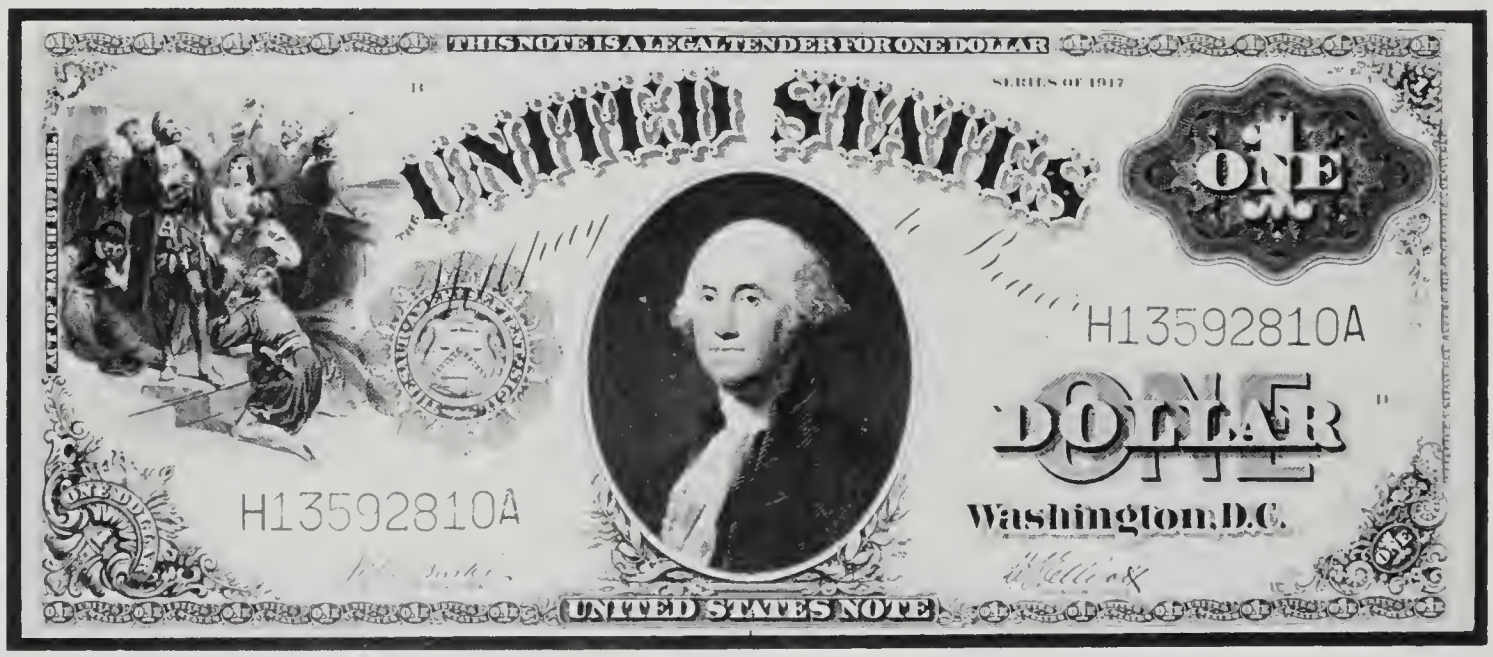
. . . . . 250.00

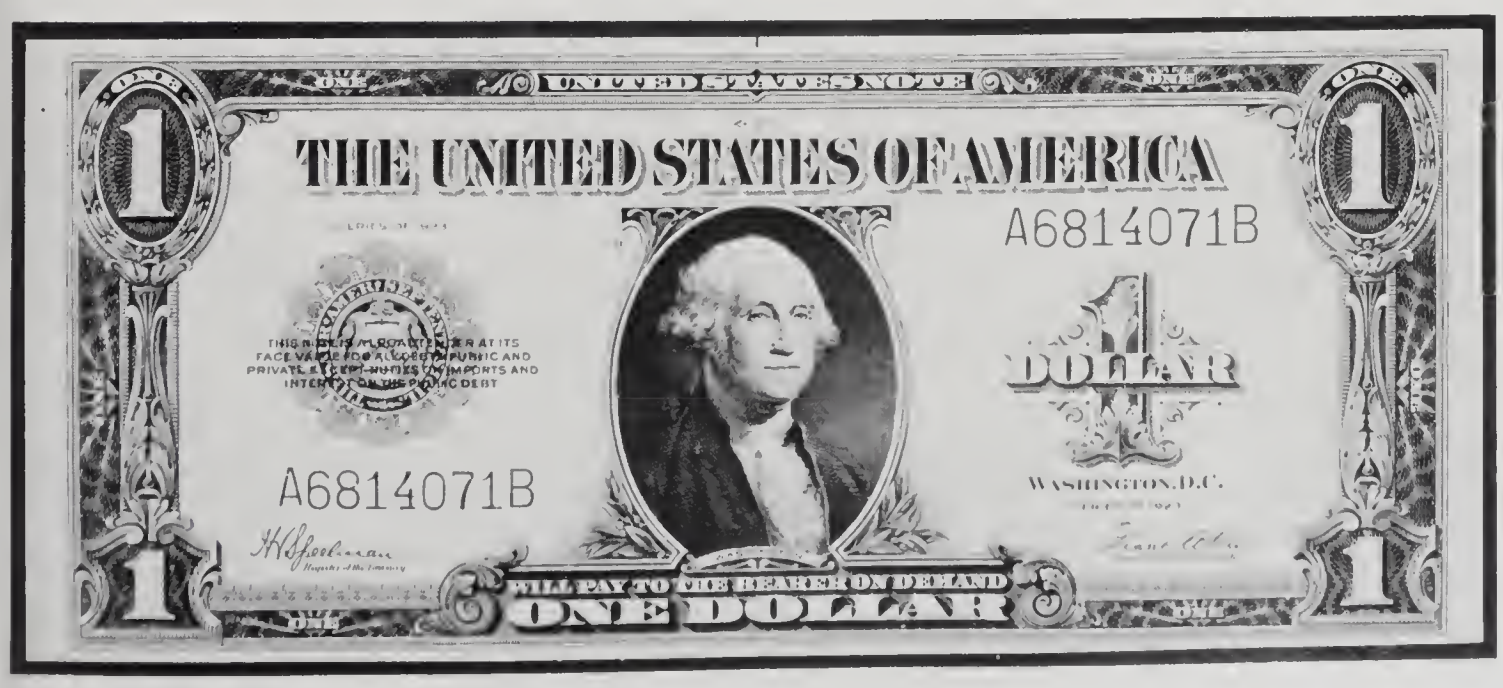
FR 37, 1917, $1.00 LEGAL TENDER. Treasury Seal and serial numbers are red. We offer a bright, crisp Unc. *Photo*
. . . . . 55.00

FR 37, 1917, $1.00 LEGAL TENDER. Another, just as nice. Unc
. . . . . 55.00

FR 37, 1917, $1.00 LEGAL TENDER. As last but AU
. . . . . 38.00

FR 37-A, 1917, $1.00 LEGAL TENDER. An error note! This is the same as FR 37, but the signatures are ***reversed!*** An outstanding error, exceedingly difficult to locate today. When the Treasurer and Register of the Treasury signatures were added to the printing plate (No. 1519), they were accidentally reversed, so that John Burke's name is at left, rather than on the right. This note will leave nothing to be desired. Gem. *Photo*
. . . . . 365.00

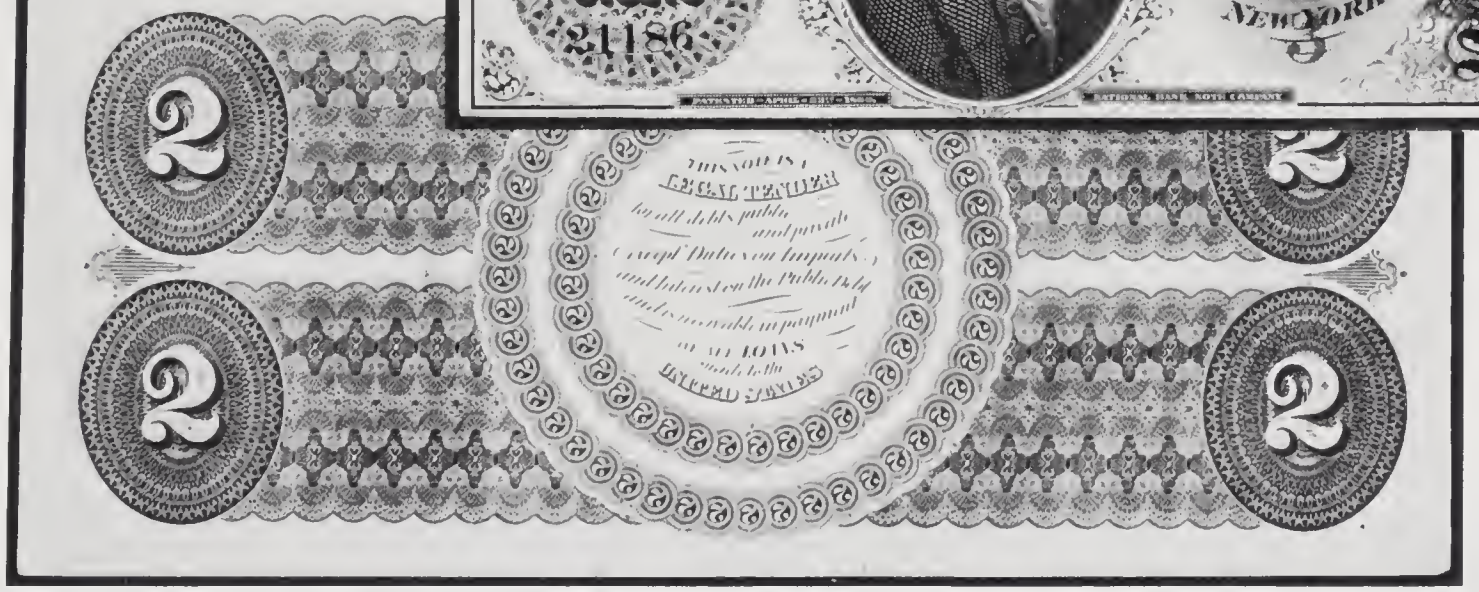




FR 40, 1923, $1.00 LEGAL TENDER. This note is found only with the Speelman-White signatures. Seal, serial numbers and ornate "1 DOLLAR" at right are all brilliant red. Much more difficult to locate than generally thought. Gem. *Photo*
. . . . . 190.00

FR 41, 1862, $2.00 LEGAL TENDER. Our first two dollar bill, printed on thin paper by National Bank Note Company. *All* early twos are very scarce or rare in high grade. We have a very bright, crisp and clean example with full margins for your consideration. XF. *Photo*

. . . . . 375.00

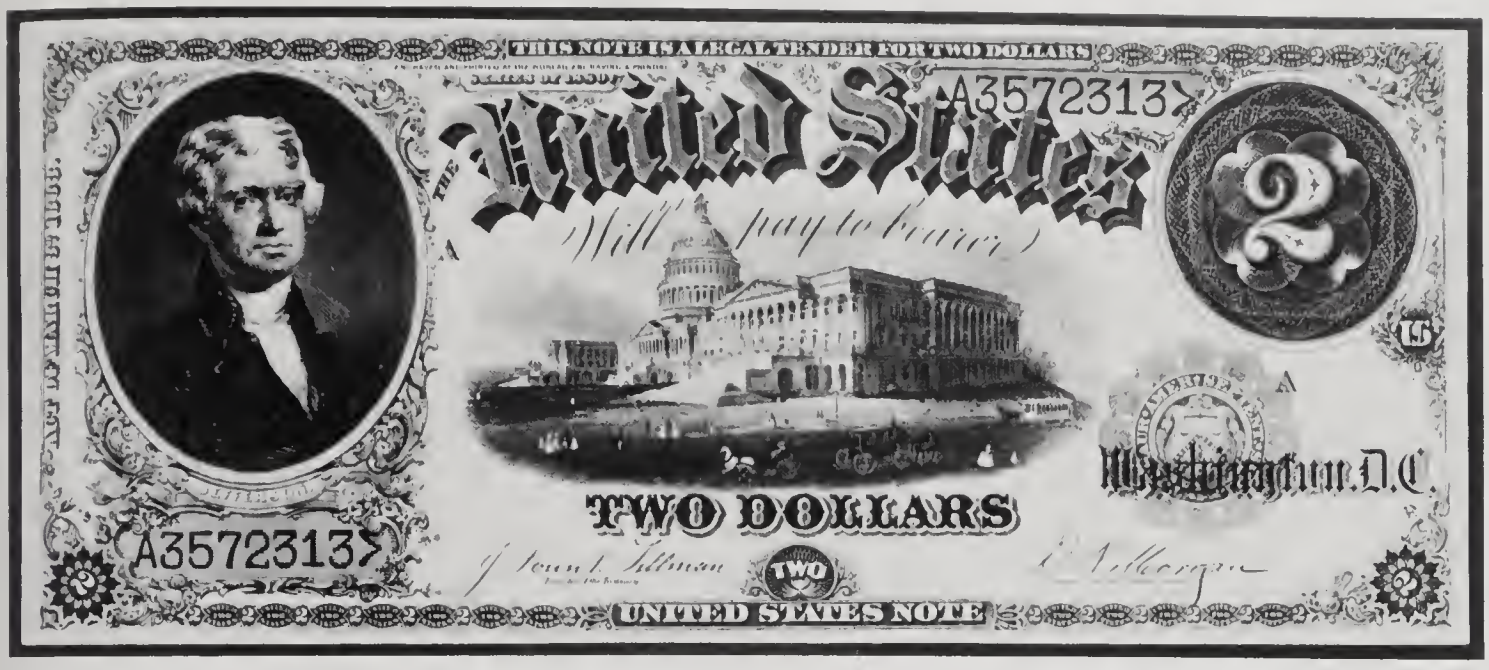


FR 41-A, 1862, $2.00 LEGAL TENDER. Similar to the last note, but "American Bank Note Company, New York" in left border. A lovely note taken out of the "Gem" category by several tiny pinholes that do not detract from the appearance. Rare. Unc. *Photo*

. . . . . 520.00

FR 46, 1875-B, $2.00 LEGAL TENDER. Very rare, very seldom seen, and in our opinion, very underrated at this price level. Pink Treasury Seal and embellishments, red serial numbers and blue security tint at right. You may wait a long time for another. Fresh, strictly Unc. *Photo*

. . . . . 775.00



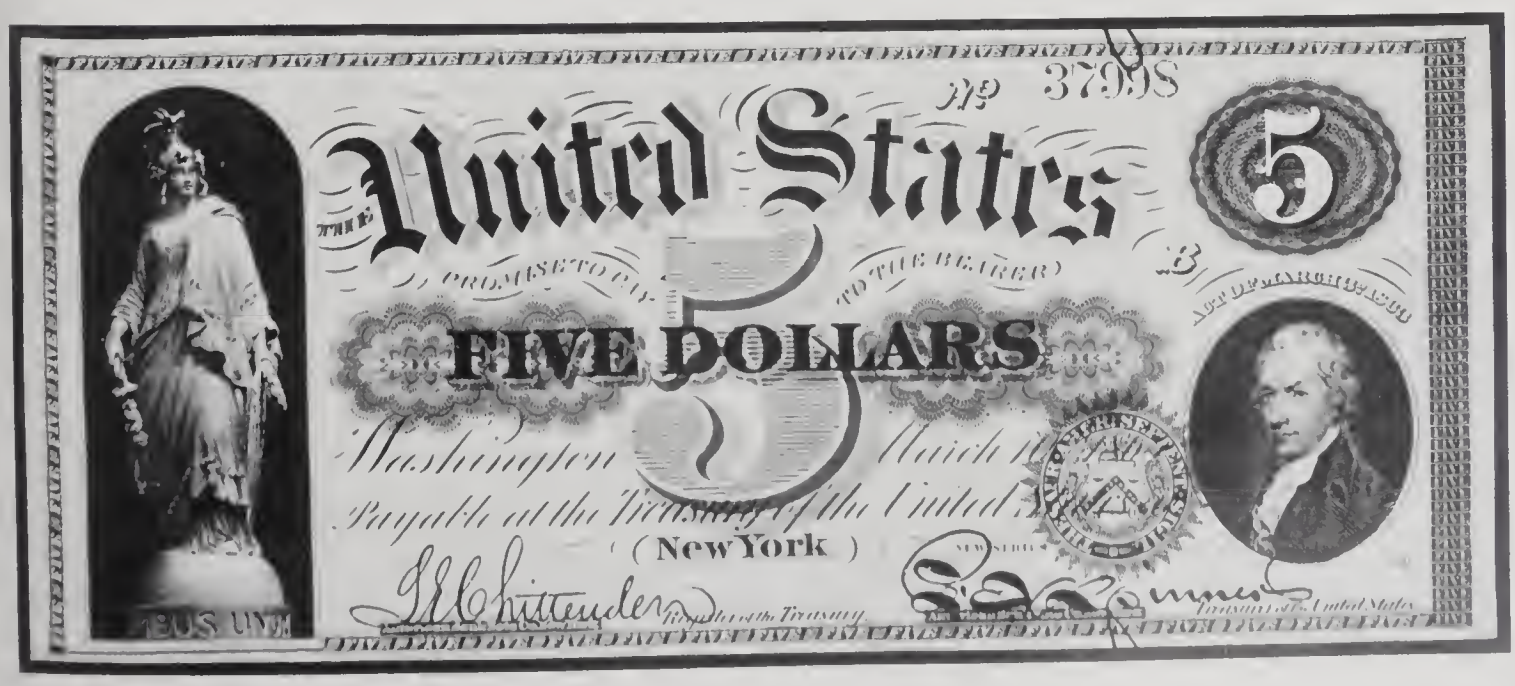
FR 56, 1880, $2.00 LEGAL TENDER. Signatures of Tillman-Morgan, pink seal, blue serial numbers. Superb, Gem. *Photo* 290.00

FR 57, 1917, $2.00 LEGAL TENDER. Same design as above note but with Red Treasury Seal and serial numbers. Gem. 90.00

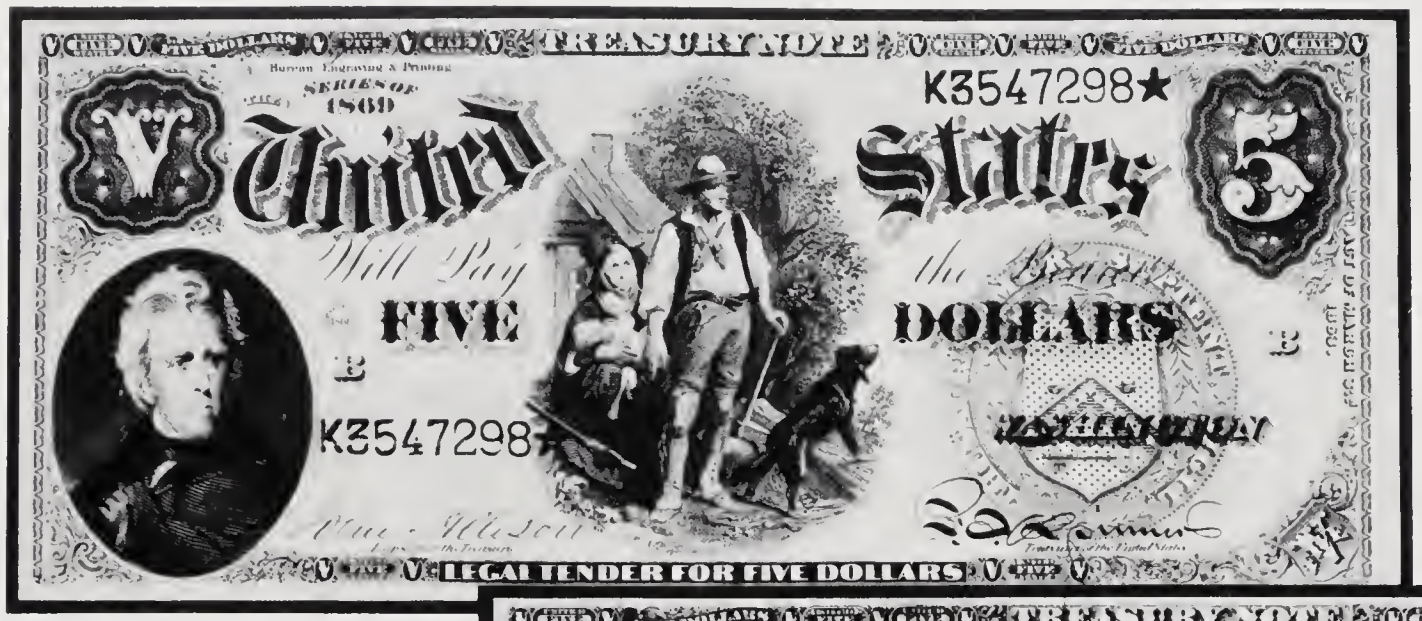
FR 58, 1917, $2.00 LEGAL TENDER. As last, but signatures of Elliott-Burke. Unc. 70.00

FR 60, 1917, $2.00 LEGAL TENDER. Unc 70.00

FR 61, 1862, $5.00 LEGAL TENDER. Our first Legal Tender five dollar bill. Printed on thin paper by American Bank Note Company. Beautiful engraving of Columbia as she appears on the Capitol in Washington. Alexander Hamilton at right, large green "5" in center. Bright and fresh as the day it was printed. Unc. *Photo* 425.00



FR 63, 1863, $5.00 LEGAL TENDER. Similar to the last but "American Bank Note Company, New York" printed twice in lower border. Crisp and bright with really exceptional margins for this issue. Gem. *Photo* 525.00



FR 64, 1869, $5.00 LEGAL TENDER. One of the most popular and also least expensive of the 1869 "Rainbow" series. Colors of red, black, green, and blue. Vignette of a pioneer family at center, Andy Jackson at left. Also called the "Woodchopper" note. Razor sharp edges, exceptional centering, Gem. *Photo*
. . . . . 450.00

FR 64, 1869, $5.00 LEGAL TENDER. Another "Woodchopper". Beautiful, average centering for this issue. Unc. *Photo*
. . . . . 365.00

FR 64, 1869, $5.00 LEGAL TENDER. As last, just as nice. Unc. *Photo*
. . . . . 365.00

FR 73, 1880, $5.00 LEGAL TENDER. Scarce! Magnificent large red Treasury Seal highlighted by dark-blue serial numbers. A stand-out addition to any collection. Unc. *Photo*
. . . . . 325.00

FR 79, 1880, $5.00 LEGAL TENDER. Rosecrans-Nebeker signatures on this note. Small red seal. Unc. *Photo*
. . . . . 225.00

FR 81, 1880, $5.00 LEGAL TENDER. Similar to last but with signatures of Bruce-Roberts. Unc. *Photo*
. . . . . 225.00

FR 83, 1907, $5.00 LEGAL TENDER. Same design but series of 1907 with signatures of Vernon-Treat. Unc.
. . . . . 100.00

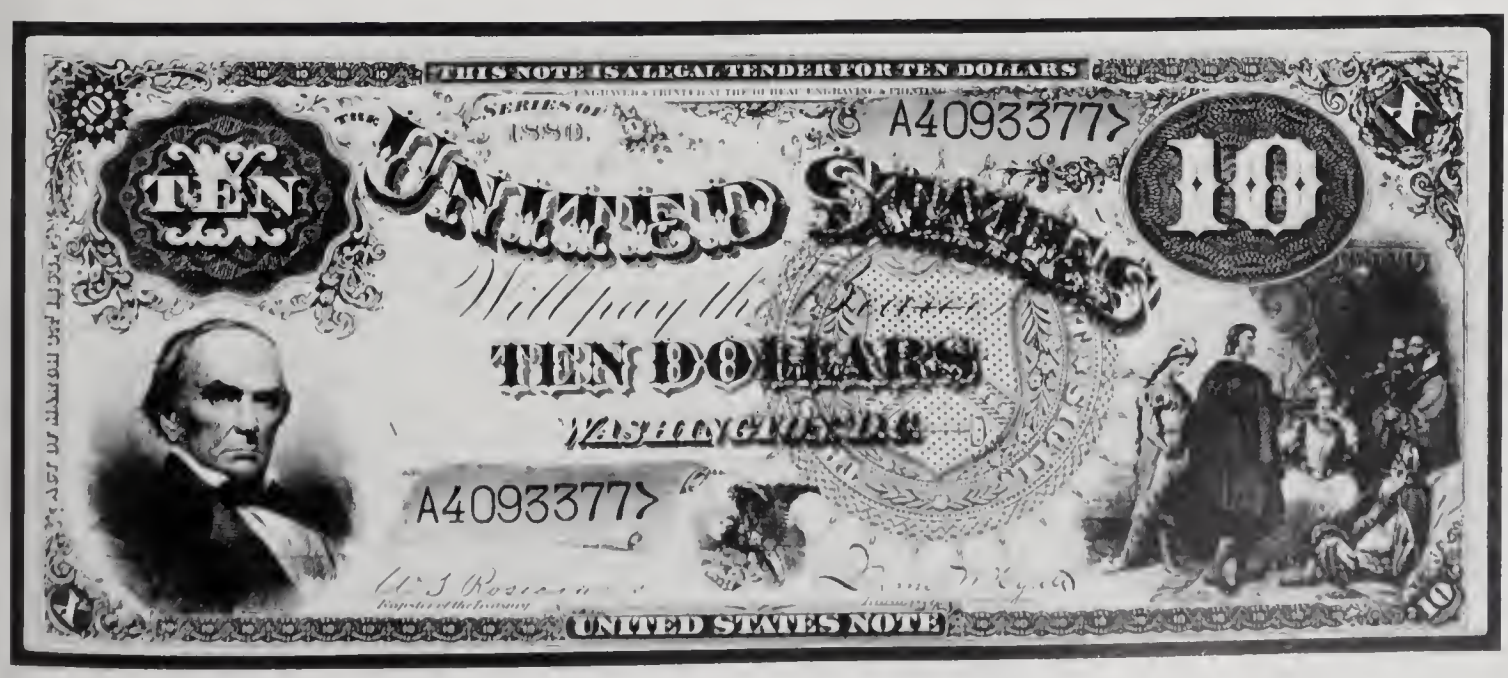
FR 85, 1907, $5.00 LEGAL TENDER. Similar to the last but with Napier-McClung signatures. Unc.
. . . . . 95.00

FR 87, 1907, $5.00 LEGAL TENDER. Signatures of Parker-Burke. Gem.
. . . . . 130.00

FR 88, 1907, $5.00 LEGAL TENDER. Teehee-Burke signatures on this one. Unc.
. . . . . 100.00

FR 89, 1907, $5.00 LEGAL TENDER. Elliot-Burke signature combination. Unc.
. . . . . 105.00

FR 91, 1907, $5.00 LEGAL TENDER. Signatures of Speelman-White. Gem.
. . . . . 110.00



FR 106, 1880, $10.00 LEGAL TENDER. The famous "Jackass" design (when the note is held upside down the eagle at center resembles the head of a jackass!). Very popular. This is the second rarest note of this series. Bright and fresh. Unc. *Photo*
. . . . . 575.00

FR 110, 1880, $10.00 LEGAL TENDER. Signatures of Rosecrans-Nebeker, small red seal with scallops. Nicely centered. Unc. *Photo*
. . . . . 390.00

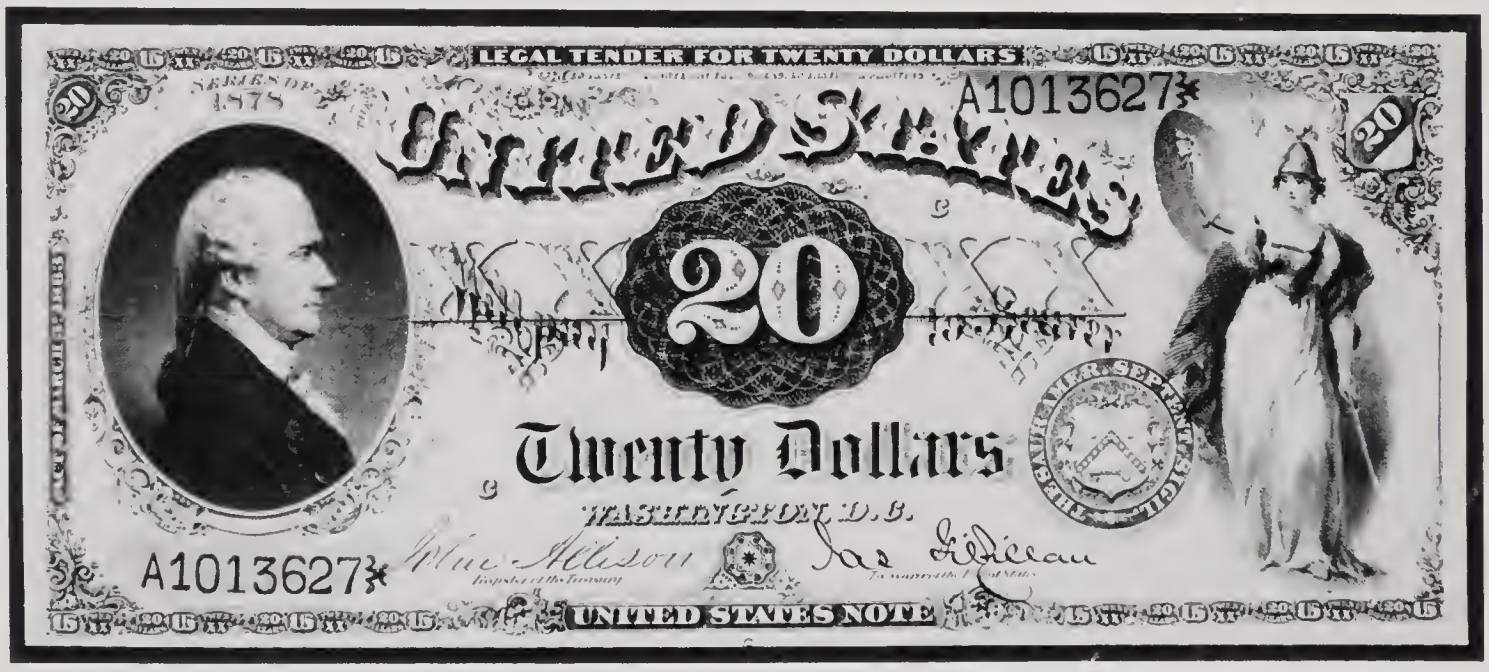
FR 119, 1901, $10.00 LEGAL TENDER. The bison note, one of the most attractive and sought-after issues. Magnificent. Gem. *Photo*
. . . . . 450.00

FR 122, 1901, $10.00 LEGAL TENDER. Another bison, this with Speelman-White signatures. Unc.
. . . . . 390.00

FR 123, 1923, $10.00 LEGAL TENDER. Nicknamed the "Poker Chip" note because of the appearance of the two circles on the reverse. A very elusive "type" note in choice condition. We grade this specimen most conservatively. EF+. *Photo*
. . . . . 875.00

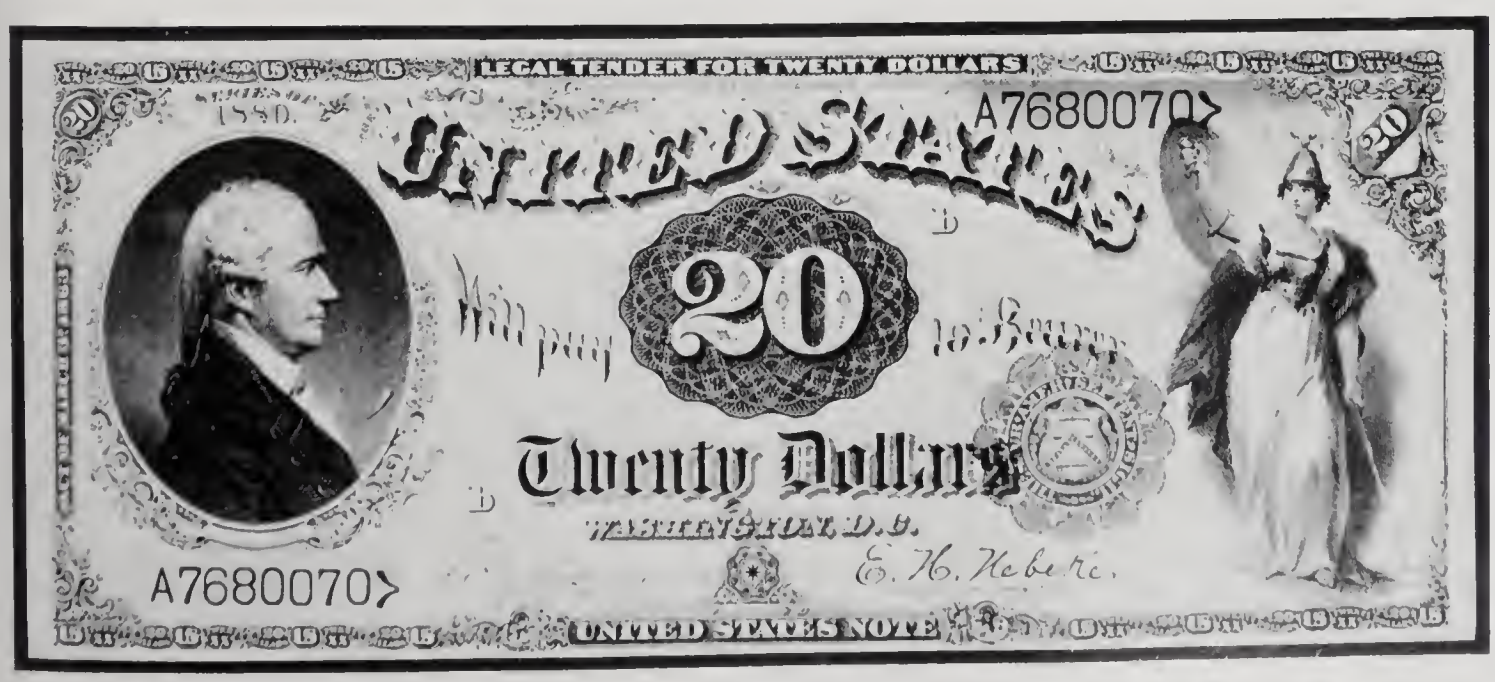
FR 127, 1869, $20.00 LEGAL TENDER. Certainly the rarest note offered in this list. Portrait of Alexander Hamilton facing Liberty at right. Another note of the beautiful "Rainbow" series. The condition of this rarity is impeccable. Outstanding centering, bright colors, crackling fresh. We would not hesitate to grade this lovely specimen strictly Gem, but for the faintest hint of a fold visible only on the reverse. Do not hesitate if you demand top rarity and top quality. AU+. *Photo*

. . . . . 2550.00



FR 129, 1878, $20.00 LEGAL TENDER. Treasury Seal and two "XX" in red with blue serial numbers, blue tint at left. *Rare.* High denomination notes of these series' are seldom seen, and we feel lucky to have this specimen to offer. Fresh, crisp, razor sharp. Unc. *Photo*

. . . . . 1275.00



FR 140, 1880, $20.00 LEGAL TENDER. Signatures of Rosecrans-Nebeker, small pink seal and blue serial numbers. Gem. *Photo*

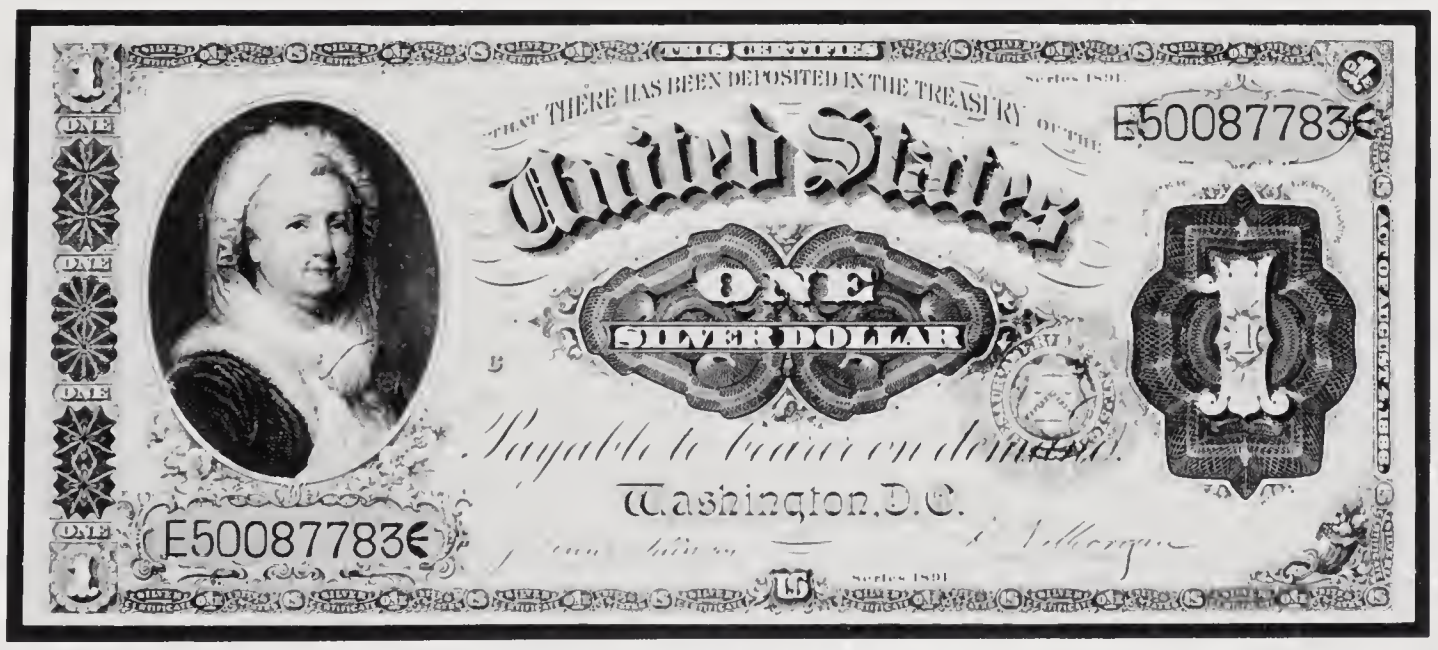
FR 147, 1880, $20.00 LEGAL TENDER. As last, Unc.

. . . . . 395.00

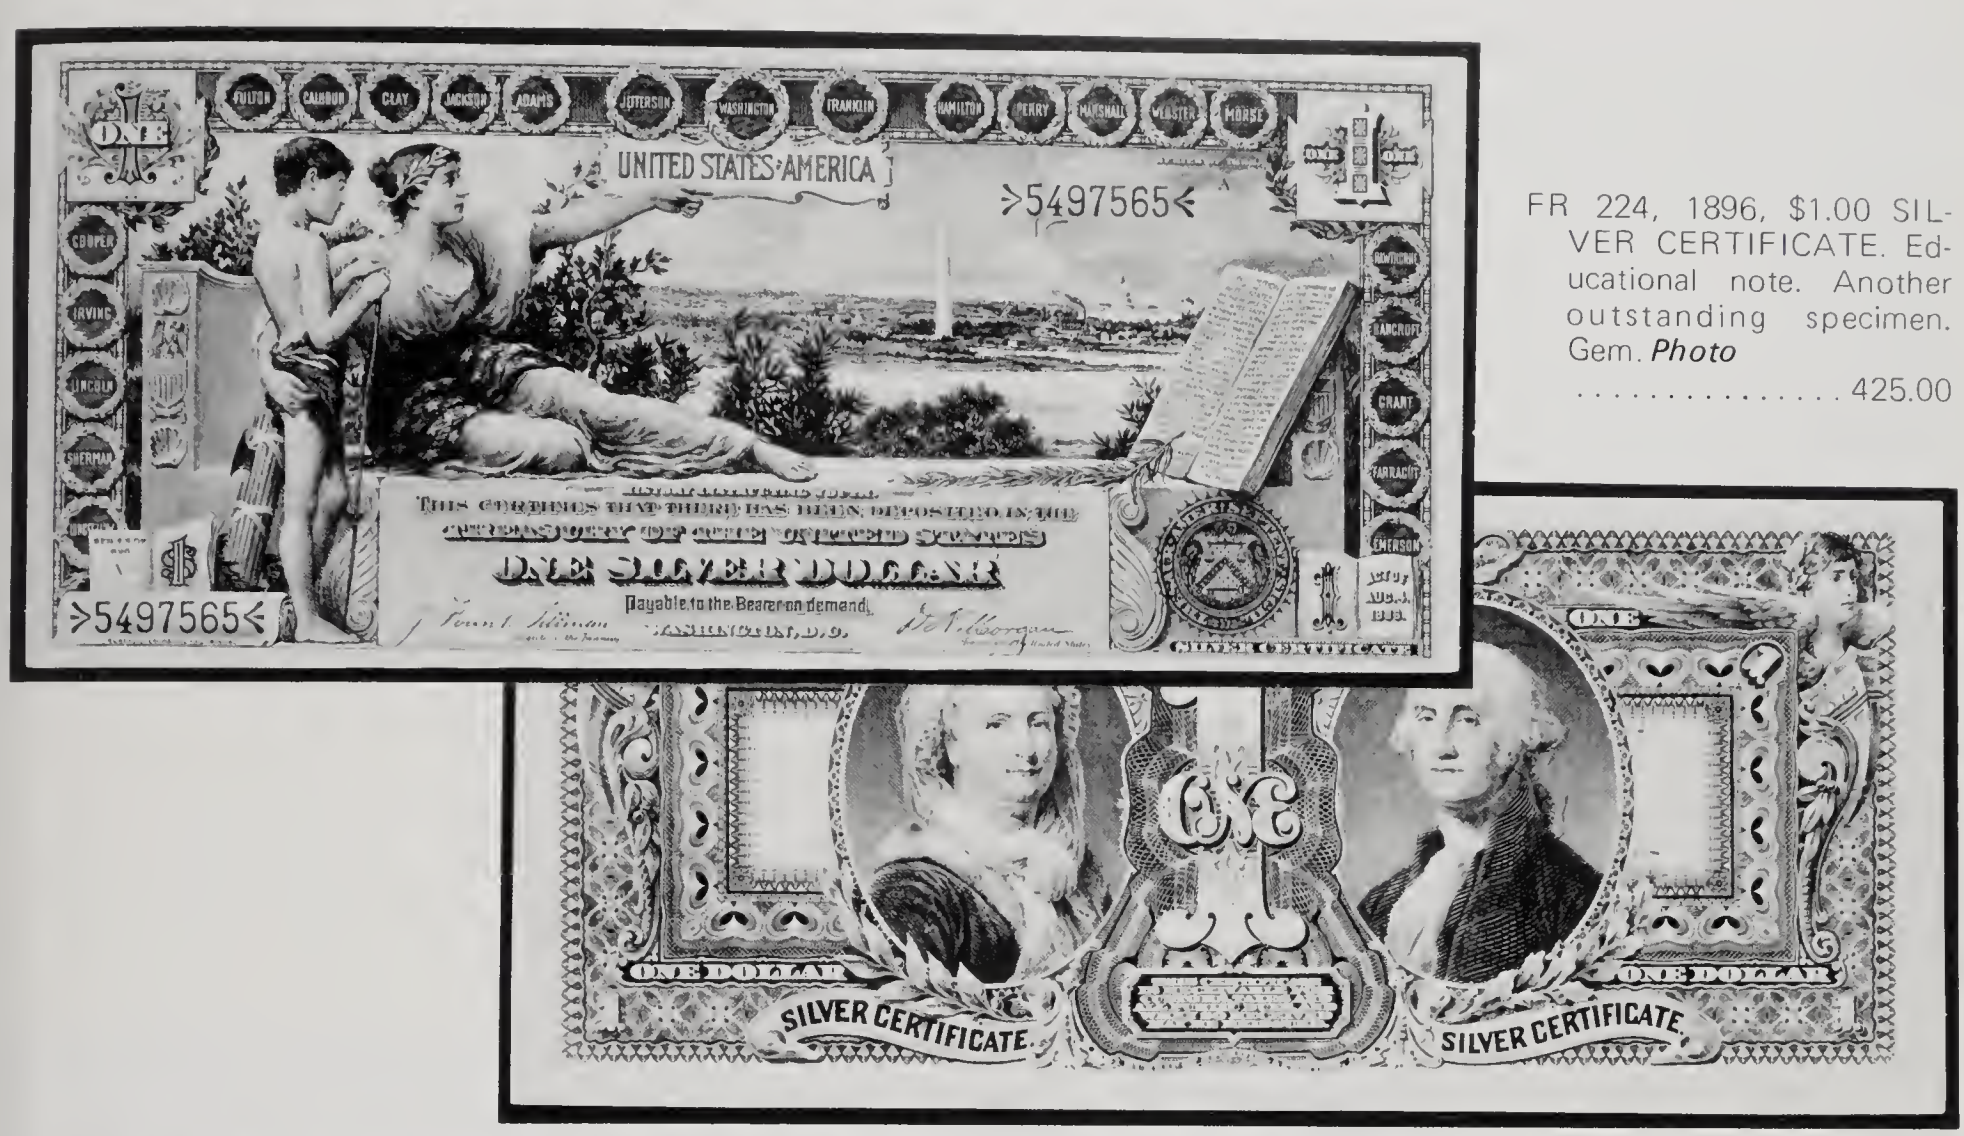
FR 218, 1886, $1.00 SILVER CERTIFICATE. Large ornate red Treasury Seal and blue serial numbers. Martha Washington is pictured at left. The first U.S. note to feature a famous American woman, this is also the first issue of $1 Silver Certificates. The reverse is a spectacular demonstration of the engraver's art. Gem. *Photo* 475.00



FR 223, 1891, $1.00 SILVER CERTIFICATE. Somewhat similar to the last note, with several prominent changes. This note has a small red Treasury Seal and the name "Martha Washington" appears below her portrait. The reverse design is now changed to allow more open space. Superb, Gem. *Photo* 395.00

FR 223, 1891, $1.00 SILVER CERTIFICATE. As last, Unc. 285.00

FR 224, 1896, $1.00 SILVER CERTIFICATE. The Educational Series. Issued in $1, $2, and $5 denominations, the one dollar note is entitled "History Instructing Youth". Names of famous Americans frame the design. Our most beautiful currency. Gem. *Photo* 425.00



FR 224, 1896, $1.00 SILVER CERTIFICATE. Educational note. Another outstanding specimen. Gem. *Photo*

. . . . . 425.00

FR 248, 1896, $2.00 SILVER CERTIFICATE. Educational. EF.

. . . . . 675.00

FR 255, 1899, $2.00 SILVER CERTIFICATE. George Washington appears between two allegorical figures representing Industry and Agriculture. A beautifully designed note with blue seal, serial numbers and large "2". Gem. *Photo*

. . . . . 195.00

FR 256, 1899, $2.00 SILVER CERTIFICATE. Similar to last but Teehee-Burke signatures. Identical in quality to the last note. Gem.

. . . . . 195.00

FR 268, 1896, $5.00 SILVER CERTIFICATE. The highest denomination of the Educational Series and the scarcest. This allegorical design portrays Electricity as the dominant force in the World. An extraordinary work of art, and a controversial one as well. Criticism of the semi-nudity pressured this note to be withdrawn soon after issuance. We have an attractive example (appears uncirculated). AU. *Photo*

. . . . . 1225.00

FR 269, 1896, $5.00 SILVER CERTIFICATE. Another, but this with Bruce-Roberts signatures. Three tiny pinholes that are almost invisible. AU.

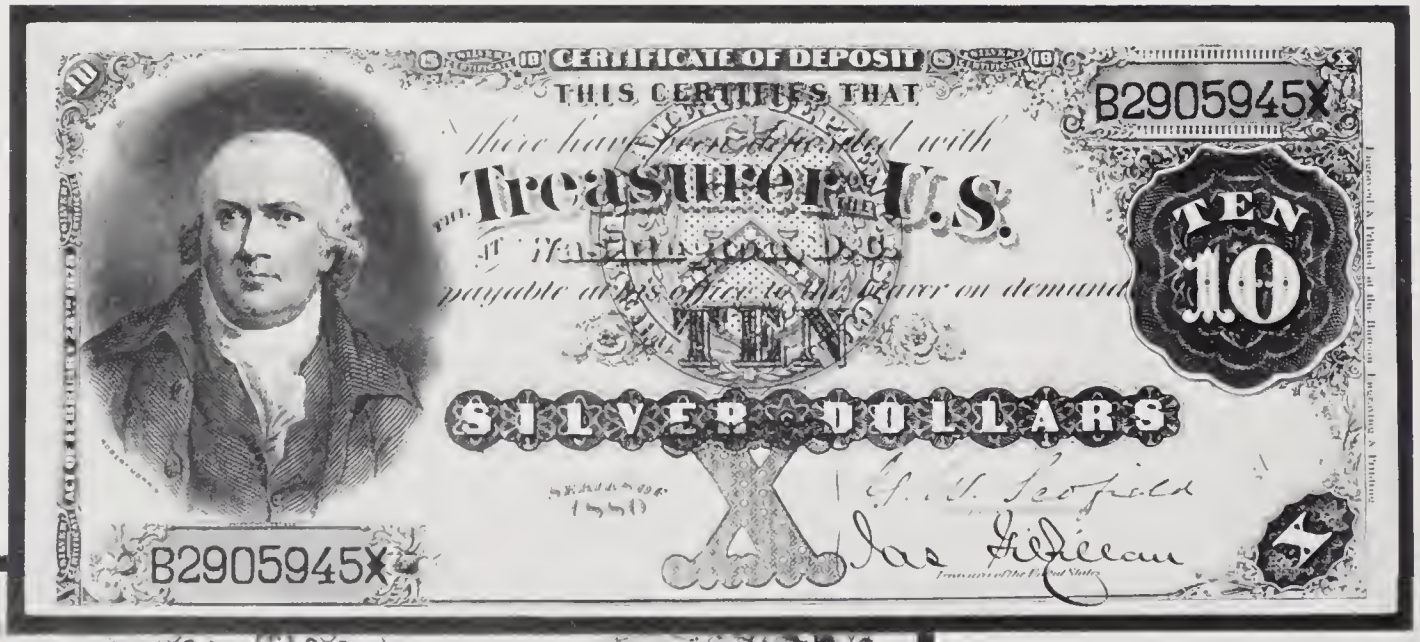
FR 282, 1923, $5.00 SILVER CERTIFICATE. Still another, strictly graded, your satisfaction guaranteed. Unc. 450.00

FR 287, 1880, $10.00 SILVER CERTIFICATE. Unlike other issues of Silver Certificates or Legal Tender notes, this series is printed with a ***blackish-brown reverse!*** All of these "Brown backs" are ***rare,*** excessively so in top condition. This note is strictly uncirculated, with minor traces of handling in the margins. Very fresh and crisp. Unc. ***Photo*** 1850.00



FR 289, 1880, $10.00 SILVER CERTIFICATE. Another note with the rare black-brown reverse. Portrait at left is Robert Morris. Large chocolate-brown Treasury Seal and "X". Very crisp, and especially brilliant. Particularly choice for this series, with no trace of handling whatsoever. Rare. Unc. *Photo*

. . . . . 1850.00

FR 298, 1891, $10.00 SILVER CERTIFICATE. Portrait of Thomas A. Hendricks, Grover Cleveland's Vice-President. Hendricks died while in office and this design was issued a year later. Often called the "Tombstone Note" because of the shape of the frame around Hendricks. Pink seal, blue serial numbers and attractive. EF. *Photo*

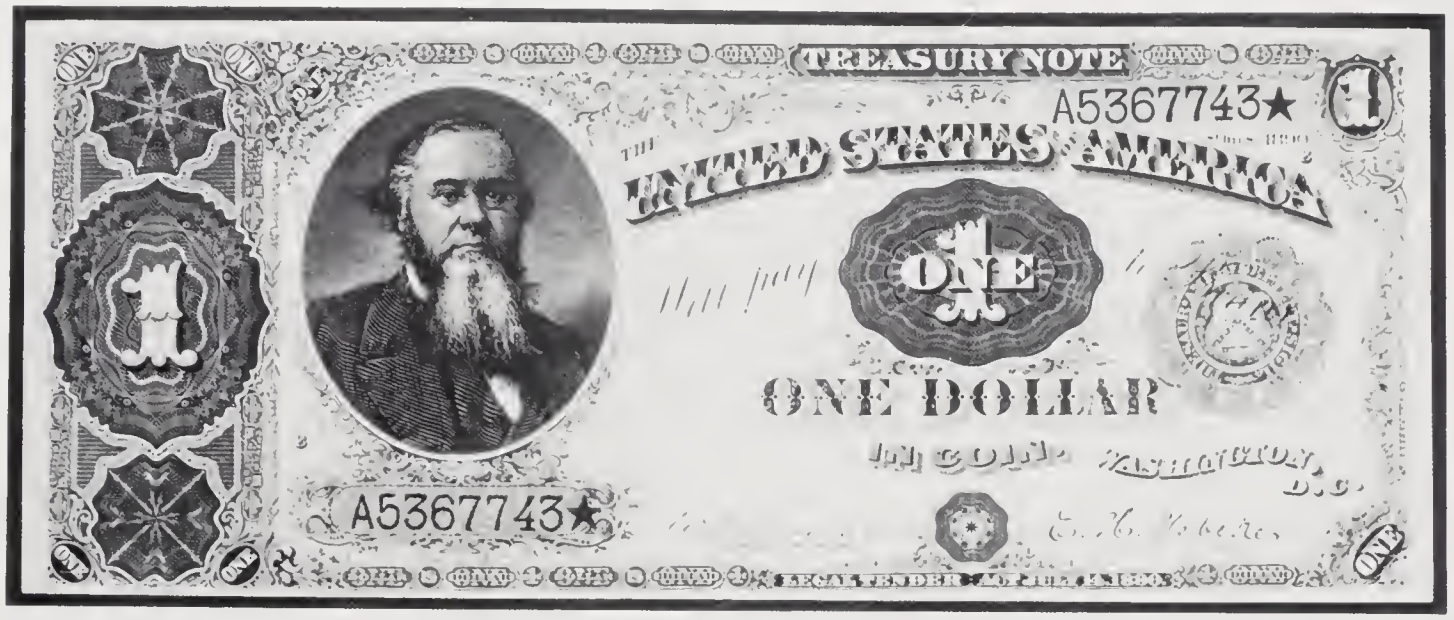
. . . . . 365.00

FR 320, 1891, $20.00 SILVER CERTIFICATE. Central vignette of Daniel Manning, Secretary of the Treasury from 1884-1887, flanked by allegorical figures representing Agriculture and Industry. Red seal, blue serial numbers. Superb! Easily the finest example of this rarity we have ever seen. Gem. *Photo*

. . . . . 1725.00

FR 322, 1891, $20.00 SILVER CERTIFICATE. Similar to the last but blue seal, serial numbers and "XX". Although appearing uncirculated, there are a few small pinholes that do not detract. Catalogues $650 unc, conservatively graded, an exceptional value. AU.

. . . . . 550.00



FR 349, 1890, $1.00 TREASURY NOTE. Rarest note of this series, Lincoln's Secretary of War, Edwin Stanton, is portrayed at left. The reverse is extremely ornate and beautiful. Very scarce. AU. *Photo*

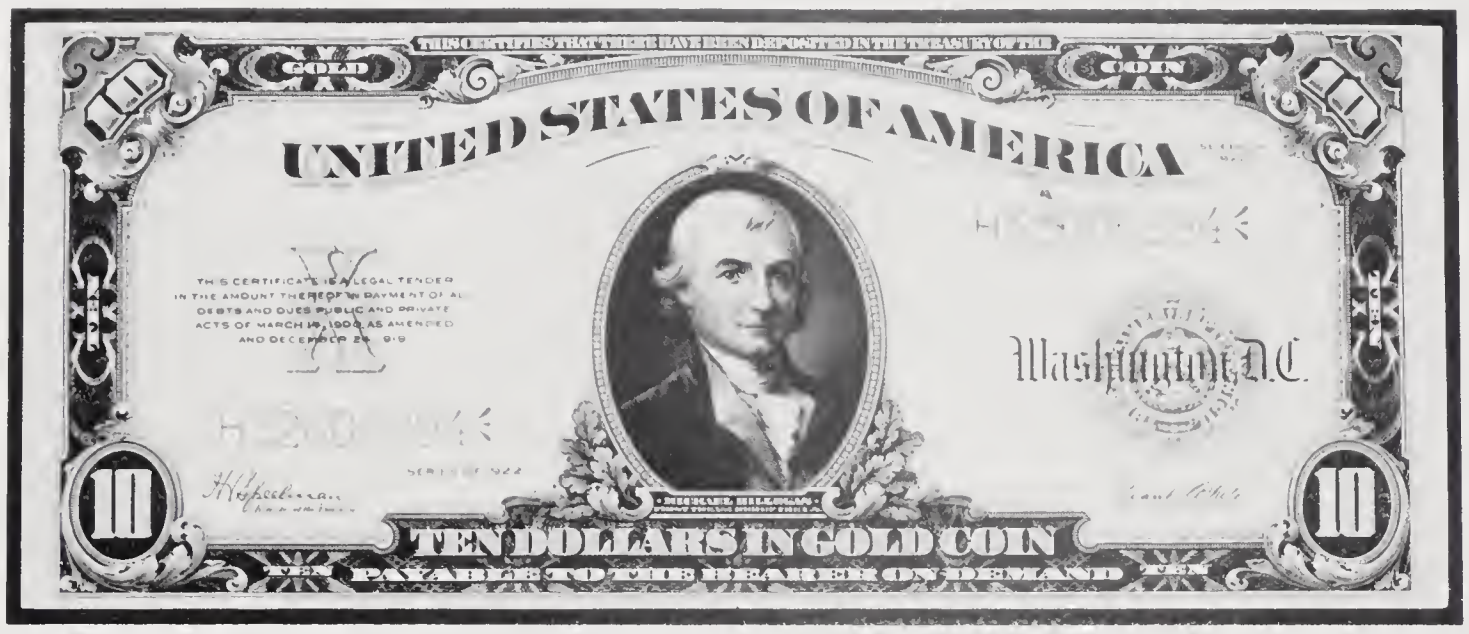
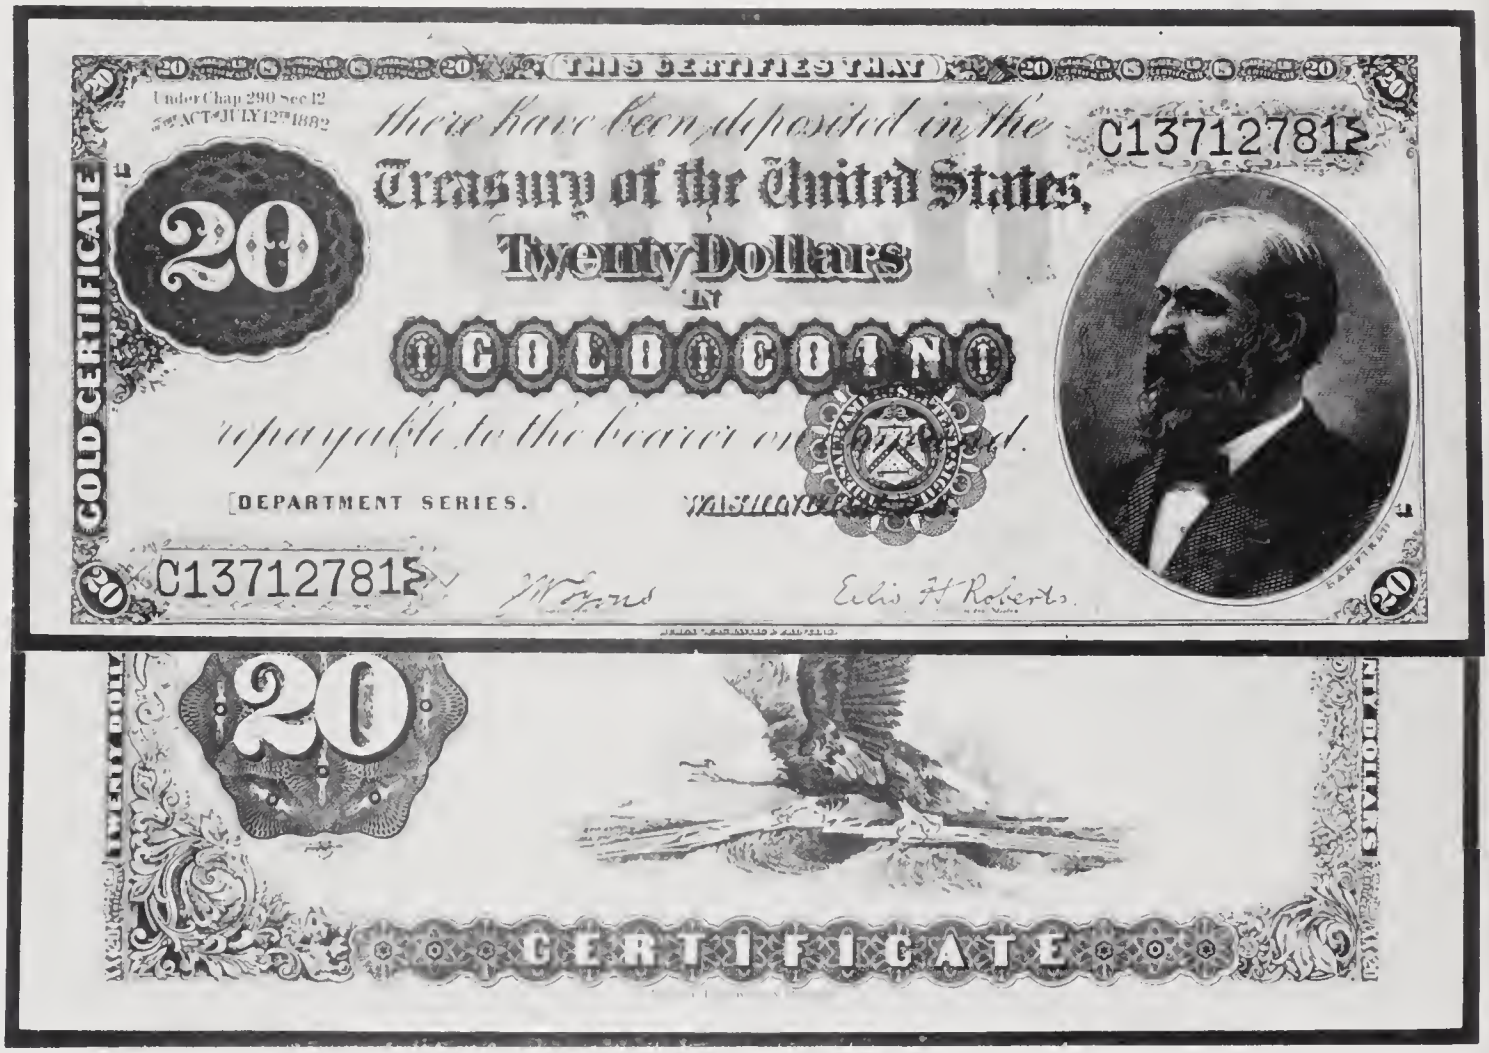
FR 368, 1890, $10.00 TREASURY NOTE. Higher denomination Treasury Notes are scarce, but in this magnificent state of preservation they are *excessively rare!* General Philip Sheridan occupies the central vignette of this beautifully executed engraving. The reverse is magnificent, the condition splendid. Gem. *Photo* 1875.00

FR 369, 1891, $10.00 TREASURY NOTE. The obverse is similar to the last, but new reverse design. Desirable serial number B543678. This note in all respects, matches the superb quality of the last. The pair would make an outstanding display. Gem. *Photo* 825.00



FR 1173, 1922, $10.00 GOLD CERTIFICATE. A most popular series. This design portrays Michael Hillegas, first U.S. Treasurer. Treasury Seal, serial numbers and entire reverse are all a brilliant gold color. Unc. *Photo* 165.00

FR 1173, 1922, $10.00 GOLD CERTIFICATE. Another, Unc. 165.00



FR 1178, 1882, $20.00 GOLD CERTIFICATE. Portrait of President Garfield. Red Treasury Seal, blue serial numbers and *"GOLD"* in gold. The reverse is a brilliant golden orange. A stunningly beautiful note that must be seen to be appreciated. With the Lyons-Roberts signatures, this is the only issue of this design still within reach of most collectors. Appears uncirculated, but we must conservatively grade it AU+. *Photo* 775.00

FR 1187, 1922, $20.00 GOLD CERTIFICATE. An outstanding example of quality engraving. We believe collector demand for these magnificent gold-back notes is bound to increase. Gem. *Photo* 310.00

FR 1187, 1922, $20.00 GOLD CERTIFICATE. As last, nicely centered. AU. 185.00

FR 1215, 1922, $100.00 GOLD CERTIFICATE. Rare! Few people could afford to save a $100 bill during the Depression Era and most were redeemed in the 1930's. Very rare in this choice condition. Brilliant colors of gold, red, dark blue and orange are all on this perfectly centered note. Gem. ***Photo*** 975.00

SMALL SIZE CURRENCY

FR 2052-J, 1928-B, $20.00 FEDERAL RESERVE NOTE. From an original pack of 25 notes. Unc. ***Photo*** 60.00

FR 2400, 1928, $10.00 GOLD CERTIFICATE. Signatures of Woods-Mellon. Gold color Treasury Seal and serial numbers. Difficult to find in crisp, uncirculated condition. Put one away for the future! Gem. ***Photo*** 90.00

FR 2400, 1928, $10.00 GOLD CERTIFICATE. As last, same condition. Gem. 90.00

Last Minute Additions

In order to present the widest possible selection to our customers, we have included this section which features coins acquired too late to include in the regular listings. Like all coins sold by us, these are accurately graded and fairly priced. If you didn't find the coin or coins you wanted elsewhere in this Rare Coin List, perhaps you will find it here.

PARAMOUNT
WANTS YOU...

to consider consigning your coins to one of our many future auction sales.

WHAT CAN PARAMOUNT DO FOR YOU?

1. Print a high quality fully descriptive catalogue with all rare pieces clearly photographed using the highest photography standards in the industry.
2. Offer you very competitive commission rates with prompt settlement after the sale. There are never any "hidden" or surprise costs to worry about later.
3. Bring you the highest possible prices for your coins. Our sales are attended by prominent dealers and collectors assuring you of high prices.

WHAT ARE WE LOOKING FOR?

Choice, high grade and rare single coins or entire collections. There is a critical shortage of truly choice (unimpaired) numismatic material at this time. As a result, record high prices are very common for really choice material.

WHAT IS OUR RECORD?

In the last decade, Paramount has conducted many notable sales including:

ANA: 1974, 1972, 1969, 1967
NASC: 1975, 1973, 1971, 1969, 1967, 1965
GRAND CENTRAL: 1975, 1974, 1973, 1972, 1971, 1970, 1969, 1968, 1967, 1966
GREATER NEW YORK: 1975, 1974, 1973
LONG BEACH: 1975, 1974 and several others!

(Obviously, We would not be invited back to these major conventions if we were not conducting quality sales and offering outstanding service.)

In the next year we have several major auctions planned. If you have coins to sell, PLEASE CALL OUR AUCTION DEPARTMENT COLLECT. We will gladly discuss our auction program with you over the phone. It costs you nothing to get the facts.

Remember: Paramount wants YOU to consign your collection to one of our future sales.
